

# - Cross-sectional study of workplace accidents, occupational illnesses and handicaps - 2007

Responsable(s) :Guggemos Fabien, Employment Division

Date de modification : 20/10/2017 | Version : 1 | ID : 73105

## Général

### Identification

Nom détaillé	Cross-sectional study of workplace accidents, occupational illnesses and handicaps - 2007
Numéro d'enregistrement (ID-RCB ou EUDRACT, CNIL, CPP, etc.)	European regulation No. 341/2006

### Thématiques générales

Domaine médical	Disability/handicap Occupational Medicine
Déterminants de santé	Occupation
Mots-clés	accident, work, employment, handicap

### Responsable(s) scientifique(s)

Nom du responsable	Guggemos
Prénom	Fabien
Téléphone	+33 (0)1 41 17 50 18
Email	fabien.guggemos@insee.fr
Laboratoire	Employment Division
Organisme	Insee

### Collaborations

Participation à des projets, des réseaux, des consortiums	Yes
---	-----

Précisions	European Project piloted by Eurostats
------------	---------------------------------------

### Financements

Financements	Public
--------------	--------

Précisions	Insee
<b>Gouvernance de la base de données</b>	
Organisation(s) responsable(s) ou promoteur	Insee
Statut de l'organisation	Secteur Public
<b>Contact(s) supplémentaire(s)</b>	
<b>Caractéristiques</b>	
<b>Type de base de données</b>	
Type de base de données	Study databases
Base de données issues d'enquêtes, précisions	Not-repeated cross-sectional studies (except case control studies)
Origine du recrutement des participants	A population file
Le recrutement dans la base de données s'effectue dans le cadre d'une étude interventionnelle	Yes
Précisions	Performed at individual level
Informations complémentaires concernant la constitution de l'échantillon	Sample consists of the 6th person leaving each quarter of the 2007 Employment survey. Only two individuals from the household are accepted for the survey, even if the household includes more than two people. The two individuals from the household who should be accepted for the survey are chosen randomly according to their month of birth and according to the month of the first day of the reference week.
<b>Objectif de la base de données</b>	
Objectif principal	<p>The first European objective of the survey is to find out the number of workplace accidents and the number of days of work lost due to these workplace accidents. The survey will also allow for the determination of the number of illnesses caused or aggravated by the job, as well as the number of work days lost due to these illnesses.</p> <p>The second European objective is to analyse the differences in results according to:</p>

- the characteristics of the employer (economic activity, size of the business, etc.)
- the characteristics of the salaried worker's job (professional status, profession, full-time, part-time, duration of career, etc.)

This supplemental set of questions is intended specifically to enable comparisons with the results of the 2002 ad hoc module on the employment of handicapped individuals, in order to be able to evaluate the effects of the "Equal rights, opportunities, participation and citizenship of handicapped individuals act" adopted in 2004. The set of questions is divided into three parts. Part A address health problems within the last twelve months.

Critères d'inclusion	Individuals who are at least 15 years of age on 31 December 2007 and who are members or ordinary households.
<b>Type de population</b>	
Age	Adulthood (19 to 24 years) Adulthood (25 to 44 years) Adulthood (45 to 64 years) Elderly (65 to 79 years) Great age (80 years and more)
Population concernée	General population
Pathologie	
Sexe	Male Woman
Champ géographique	National
Détail du champ géographique	France
<b>Collecte</b>	
<b>Dates</b>	
Année du premier recueil	2007
Année du dernier recueil	2007
<b>Taille de la base de données</b>	
Taille de la base de données (en nombre d'individus)	Greater than 20 000 individuals
Détail du nombre d'individus	39 572

## Données

Activité de la base Data collection completed

Type de données recueillies Declarative data

Données déclaratives, précisions Paper self-questionnaire

Détail des données déclaratives recueillies The set of questions is divided into three parts. Part A address health problems within the last twelve months. Submodule A1 is intended for individuals who do not have any illnesses or handicaps caused or aggravated by work, while submodule A2 addresses individuals who have one or more illnesses, one or more of which were caused or aggravated by work. Module B is dedicated to workplace accidents that have occurred within the last twelve months, for individuals who have worked during this period. Module C has to do with the specific jobs and administrative procedures for the recognition of an illness or handicap. Lastly, module D has to do with the risks at the surveyed individual's workplace. 37,392 individuals completed the survey.

Existence d'une bibliothèque No

Paramètres de santé étudiés Health event/morbidity  
Health event/mortality

## Modalités

Mode de recueil des données Computer-assisted personal interviewing (CAPI). A second on-site interview should be carried out; performing the second interview by telephone is not allowed. In this survey, proxies are not allowed except for in the case of individuals who are unable to respond.

Nomenclatures employées WHO coding

Suivi des participants No

Pathologie suivies

Appariement avec des sources administratives No

## Accès

Charte d'accès aux données  
(convention de mise à  
disposition, format de données  
et délais de mise à disposition)

The data may only be used for research purposes.  
Any commercial use is strictly prohibited.

The "production and research" files are subject to  
specific rules for use and should be destroyed at  
the end of the research for which they have been  
shared.

The data from 2006 were distributed by the  
Quetelet network. In this setting, the files are  
accessible free of charge for research purposes to  
French and foreign researchers, professor-  
researchers, doctoral students and master's  
degree students. Any commercial use is prohibited.  
You must create an account first to access the data  
files : <http://www.reseau-quetelet.cnrs.fr/quetelet/quetelet.php> ).
