Unit HESPER

Organization Université de Lyon 1

Collaborations

Participation in projects, networks and consortia No

Funding

Funding status Public

Governance of the database

Sponsor(s) or organisation(s) responsible Hospices Civils de Lyon & Université de Lyon 1

Organisation status Public

Presence of scientific or steering committees Yes

Additional contact

Main features

Type of database

Type of database Study databases

Study databases (details) Not-repeated cross-sectional studies (except case control studies)

Database recruitment is carried out by an intermediary A selection of health care professionals
A selection of health institutions and services

Database recruitment is made on the basis of: Another treatment or procedure

Database recruitment is carried out as part of an interventional study No

Additional information regarding sample selection. General practices and multiprofessional health homes across the Auvergne-Rhône-Alpes French region

Database objective

Main objective	To estimate and describe, during the epidemics, the temporal evolution of the following indicators in the patient list of the primary care facilities in the Auvergne-Rhône-Alpes French region: incidence of the clinically suspect COVID-19 cases, incidence of the biologically confirmed COVID-19 cases, clinical characteristics of these cases.
Inclusion criteria	<ul style="list-style-type: none"> - Patient M/F - Suspect or confirmed COVID-19 case attending a general practice or a multiprofessional health home in the Auvergne-Rhône-Alpes French region
Population type	
Age	Newborns (birth to 28 days) Infant (28 days to 2 years) Early childhood (2 to 5 years) Childhood (6 to 13 years) Adolescence (13 to 18 years) Adulthood (19 to 24 years) Adulthood (25 to 44 years) Adulthood (45 to 64 years) Elderly (65 to 79 years) Great age (80 years and more)
Population covered	Sick population
Pathology	I - Certain infectious and parasitic diseases
Gender	Male Woman
Geography area	Regional
French regions covered by the database	Auvergne Rhône-Alpes
Data collection	
Dates	
Date of first collection (YYYY or MM/YYYY)	2020
Date of last collection (YYYY or MM/YYYY)	2020
Size of the database	
Size of the database (number of individuals)	[1000-10 000[individuals

Data

Database activity	Current data collection
-------------------	-------------------------

Type of data collected	Clinical data Biological data Administrative data
------------------------	---------------------------------------------------------

Clinical data (detail)	Direct physical measures Medical registration
------------------------	--------------------------------------------------

Details of collected clinical data	Context, risk factors, interview data, clinical examination, follow-up
------------------------------------	------------------------------------------------------------------------

Biological data (detail)	COVID-19 test
--------------------------	---------------

Administrative data (detail)	Sick leave
------------------------------	------------

Presence of a biobank	No
-----------------------	----

Health parameters studied	Health event/morbidity
---------------------------	------------------------

Procedures

Data collection method	Questionnaire integrated in the medical software
------------------------	--------------------------------------------------

Quality procedure(s) used	Checking of the completeness of the questionnaire data
---------------------------	--------------------------------------------------------

Participant monitoring	No
------------------------	----

Followed pathology	
--------------------	--

Links to administrative sources	No
---------------------------------	----

Promotion and access

Promotion

Access

Dedicated website	https://www.soprac.fr/icap_website/view/2551
-------------------	---------------------------------------------------------------------------------------------------------

Presence of document that lists variables and coding procedures	No
-----------------------------------------------------------------	----

Terms of data access (charter for data provision, format of data, availability delay)	On request, after results publication
---------------------------------------------------------------------------------------	---------------------------------------

Access to aggregated data	Access on specific project only
---------------------------	---------------------------------

Access to individual data

No access
