

# SOPRAC - Primary care for COVID-19 in the Auvergne-Rhône-Alpes French region

Head :Letrilliart Laurent, HESPER

Last update : 01/03/2021 | Version : 1 | ID : 73835

## General

### Identification

Detailed name Primary care for COVID-19 in the Auvergne-Rhône-Alpes French region

Sign or acronym SOPRAC

CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation n°IRB :2020040703

### General Aspects

Medical area General practice  
Infectious diseases

Study in connection with Covid-19 Yes

Pathology (details) COVID-19

Health determinants Healthcare system and access to health care services

Keywords COVID-19; primary care; clinical epidemiology; incidence; semiology

### Scientific investigator(s) (Contact)

Name of the director Letrilliart

Surname Laurent

Address CUMG  
8 avenue Rockefeller  
69373 LYON Cedex 08  
France

Phone 33 6 24 17 87 76

Email	laurent.letrilliart@univ-lyon1.fr
Unit	HESPER
Organization	Université de Lyon 1

## Collaborations

Participation in projects, networks and consortia	No
---	----

## Funding

Funding status	Public
----------------	--------

## Governance of the database

Sponsor(s) or organisation(s) responsible	Hospices Civils de Lyon & Université de Lyon 1
---	--

Organisation status	Public
---------------------	--------

Presence of scientific or steering committees	Yes
---	-----

## Additional contact

## Main features

### Type of database

Type of database	Study databases
Study databases (details)	Not-repeated cross-sectional studies (except case control studies)

Database recruitment is carried out by an intermediary	A selection of health care professionals A selection of health institutions and services
--	---

Database recruitment is made on the basis of:	Another treatment or procedure
---	--------------------------------

Database recruitment is carried out as part of an interventional study	No
--	----

Additional information regarding sample selection.	General practices and multiprofessional health homes across the Auvergne-Rhône-Alpes French region
--	--

## Database objective

Main objective To estimate and describe, during the epidemics, the temporal evolution of the following indicators in the patient list of the primary care facilities in the Auvergne-Rhône-Alpes French region: incidence of the clinically suspect COVID-19 cases, incidence of the biologically confirmed COVID-19 cases, clinical characteristics of these cases.

Inclusion criteria - Patient M/F  
- Suspect or confirmed COVID-19 case attending a general practice or a multiprofessional health home in the Auvergne-Rhône-Alpes French region

## Population type

Age Newborns (birth to 28 days)  
Infant (28 days to 2 years)  
Early childhood (2 to 5 years)  
Childhood (6 to 13 years)  
Adolescence (13 to 18 years)  
Adulthood (19 to 24 years)  
Adulthood (25 to 44 years)  
Adulthood (45 to 64 years)  
Elderly (65 to 79 years)  
Great age (80 years and more)

Population covered Sick population

Pathology I - Certain infectious and parasitic diseases

Gender Male  
Woman

Geography area Regional

French regions covered by the database Auvergne Rhône-Alpes

## Data collection

### Dates

Date of first collection (YYYY or MM/YYYY) 2020

Date of last collection (YYYY or MM/YYYY) 2020

### Size of the database

Size of the database (number of individuals) [1000-10 000] individuals

## Data

Database activity                      Current data collection

Type of data collected                Clinical data  
Biological data  
Administrative data

Clinical data (detail)                 Direct physical measures  
Medical registration

Details of collected clinical data    Context, risk factors, interview data, clinical examination, follow-up

Biological data (detail)               COVID-19 test

Administrative data (detail)         Sick leave

Presence of a biobank                No

Health parameters studied          Health event/morbidity

## Procedures

Data collection method               Questionnaire integrated in the medical software

Quality procedure(s) used            Checking of the completeness of the questionnaire data

Participant monitoring                No

Followed pathology

Links to administrative sources     No

## Promotion and access

### Promotion

### Access

Dedicated website                    [https://www.soprac.fr/icap\\_website/view/2551](https://www.soprac.fr/icap_website/view/2551)

Presence of document that lists variables and coding procedures    No

Terms of data access (charter for data provision, format of data, availability delay)    On request, after results publication

Access to aggregated data            Access on specific project only

Access to individual data

No access
