| Details of the number of individuals         | 5000  |
| Data   |   |
| Database activity                            | Current data collection   |
| Type of data collected                       | Clinical data<br>Declarative data   |

Paraclinical data  
Biological data  
Administrative data

Clinical data (detail)      Direct physical measures

Declarative data (detail)      Face to face interview

Presence of a biobank      No

## Procedures

Data collection method      e-CRF after written informed consent

Participant monitoring      Yes

Monitoring procedures      Monitoring by contact with the participant (mail, e-mail, telephone etc.)  
Monitoring by convocation of the participant

Followed pathology      U04 - Severe acute respiratory syndrome [SARS]

Links to administrative sources      No

## Promotion and access

### Promotion

Link to the document      [BMJ\\_open\\_covidor\\_20250402\\_RSU.pdf](#)

Description      covidor study publication

### Access

Presence of document that lists variables and coding procedures      Yes

Terms of data access (charter for data provision, format of data, availability delay)      Written Informed consent with RGPD and cnil declarations

Access to aggregated data      Access not yet planned

Access to individual data      No access
