

# CERTIFY.HEALTH - Evaluation of the Certify.Health application as a digital resource for managing the COVID-19 pandemic

Head :BOSSON Jean-Luc, TIMC Laboratory - Themas team

Last update : 05/05/2021 | Version : 1 | ID : 73789

## General

### Identification

Detailed name Evaluation of the Certify.Health application as a digital resource for managing the COVID-19 pandemic

Sign or acronym CERTIFY.HEALTH

CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation 2020-A01649-30

### General Aspects

Medical area General practice  
Occupational Medicine  
Pneumology

Study in connection with Covid-19 Yes

### Scientific investigator(s) (Contact)

Name of the director BOSSON

Surname Jean-Luc

Address Laboratoire TIMC-IMAG (Equipe Themas Université Grenoble Alpes - CNRS UMR 5525)<br>CHU Grenoble - Pavillon Taillefer - Bd Chantourne - CS10217<br>38043 Grenoble Cedex 9

Unit TIMC Laboratory - Themas team

Organization Grenoble Alpes University

### Collaborations

### Funding

## Governance of the database

Sponsor(s) or organisation(s) responsible	TIMC-IMAG Laboratory - Grenoble Alpes University
Organisation status	Public

## Additional contact

Name of the contact	COMTE
Surname	Alexa
Email	alexa.comte@univ-grenoble-alpes.fr

## Main features

### Type of database

Type of database	Study databases
Study databases (details)	Longitudinal study (except cohorts)
Database recruitment is carried out by an intermediary	A selection of health institutions and services
Database recruitment is made on the basis of:	Another treatment or procedure
Database recruitment is carried out as part of an interventional study	Yes
Details	Performed at individual level

----------------	---

Inclusion criteria	<ul style="list-style-type: none"><li>- Age ? 18 years</li><li>- Healthcare personnel in healthcare, research and teaching facilities, or a member of the home-care network:<ul style="list-style-type: none"><li>? equipped with a smartphone which can run the electronic application (version of the participant's Android or iOS operating system compatible with the application) and having an internet connection</li><li>OR a computer with internet access</li><li>? agreeing to provide their mobile phone number to access the application and receive notifications</li></ul></li></ul>
--------------------	---

OR a resident in a selected nursing home

## Population type

Age  
Adulthood (19 to 24 years)  
Adulthood (25 to 44 years)  
Adulthood (45 to 64 years)  
Elderly (65 to 79 years)  
Great age (80 years and more)

Population covered                      General population

## Pathology

Gender                                      Male  
    Woman

Geography area                          Local

French regions covered by the  
database                                  Auvergne Rhône-Alpes

## Data collection

### Dates

Date of first collection (YYYY or  
MM/YYYY)                              2020

Date of last collection (YYYY or  
MM/YYYY)                              2021

### Size of the database

Size of the database (number of  
individuals)                              [500-1000[ individuals

### Data

Database activity                          Current data collection

Type of data collected                      Declarative data  
    Paraclinical data  
    Administrative data  
    Utility / preference data

Details of collected declarative  
data    Apparition de symptômes covid-19, réalisation de  
    PCR

Paraclinical data (detail)                      Age, gender, Covid-19 test result

Administrative data (detail)                      SEG

Utility / preference data (detail)

User-friendliness and acceptability of the Certify.Health online electronic health passport application

Presence of a biobank

No

Procedures

Followed pathology
