|--|--|--|
| General | | |
| Identification | | |
| Detailed name | Description in real life of glucocorticoid-sparing in patients treated with Roactemra® for moderate to severe rheumatoid arthritis | |
| Sign or acronym | SPARE-1 | |
| CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation | ML25634 | |
| General Aspects | | |
| Medical area | Rheumatology | |
| Study in connection with Covid- 19 | No | |
| Pathology (details) | Moderate to severe rheumatoid arthritis | |
| Health determinants | Medicine | |
| Keywords | Tocilizumab | |
| Scientific investigator(s) (Contact) | | |
| Name of the director | Roche Medical Data Center | |
| Address | 4 cours de l'Ile Seguin - 92650 BOULOGNE- BILLANCOURT | |
| Email | data_sharing_france@roche.com | |
| Organization | Roche SAS | |
| Collaborations | | |

No

| networks and consortia | |
|---|---|
| Funding | |
| Funding status | Private |
| Governance of the database | |
| Sponsor(s) or organisation(s) responsible | Roche SAS |
| Organisation status | Private |
| Presence of scientific or steering committees | Yes |
| Additional contact | |
| Name of the contact | https://www.roche.fr/fr/innovation-recherche- medicale/data-sharing-portail-d-information- partage-des-donnees.html |
| Main features | |
| Type of database | |
| | |
| Type of database | Study databases |
| Type of database Study databases (details) | Study databases Cohort study |
| Study databases (details) | |
| Study databases (details) Database recruitment is carried | Cohort study |
| Study databases (details) Database recruitment is carried out by an intermediary Database recruitment is is made | Cohort study A selection of health institutions and services |
| Study databases (details) Database recruitment is carried out by an intermediary Database recruitment is is made on the basis of: Database recruitment is carried out as part of an interventional | Cohort study A selection of health institutions and services Medication(s) taken |

at baseline;

2. to evaluate efficacy of RoActemra® (EULAR response and/or glucocorticoid dosage) in real life;

3. to describe therapeutic management of RA [glucocorticoids and/or conventional Disease-Modifying Anti-Rheumatic Drug(s) (DMARDs) in combination with RoActemra®];
4. to describe change in functional capacity of patients and impact of the disease on the patient over time during follow-up (HAQ-DI and RAID self-report questionnaires);
5. to assess safety of RoActemra®.

| | - |
|--------------------|--|
| Inclusion criteria | Inclusion criteria: - Patients aged 18 years and older; - Patients with moderate to severe rheumatoid arthritis; - Patients for whom the rheumatologist decided to initiate treatment with RoActemra®; - Patients taking oral glucocorticoids >5 mg/day of prednisone or equivalent for at least 3 months; - Patients having received oral and written information about the study and having raised no objections to the collection and computer processing of his/her personal data. |
| | Exclusion criteria: - Patients participating in a clinical trial on rheumatoid arthritis at time of inclusion could not participate to the study. |

| | participate to trie study. |
|--------------------|---|
| Population type | |
| Age | Adulthood (19 to 24 years) Adulthood (25 to 44 years) Adulthood (45 to 64 years) Elderly (65 to 79 years) Great age (80 years and more) |
| Population covered | Sick population |
| Pathology | M05-M14 - Inflammatory polyarthropathies |
| Gender | Male Woman |
| Geography area | National |
| Data collection | |
| Dates | |

| Date of first collection (YYYY or MM/YYYY) | 2011 |
|--|------|
| Date of last collection (YYYY or | 2013 |

| MM/YYYY) | |
|--|---|
| Size of the database | |
| Size of the database (number of individuals) | < 500 individuals |
| Details of the number of individuals | 321 |
| Data | |
| Database activity | Data collection completed |
| Type of data collected | Clinical data Biological data |
| Clinical data (detail) | Medical registration |
| Details of collected clinical data | Validation of inclusion and exclusion criteria - Sociodemographic data - Medical history and concomitant diseases - RA history, previous and/or ongoing RA treatments - Most recent clinical and biological data - Physician global assessment of RA activity (asymptomatic to very severe) - RA treatments and reason for discontinuation where applicable - Treatment with RoActemra® - Adverse events - Reason for early study discontinuation - HAQ-DI, RAID scale. |
| Presence of a biobank | No |
| Health parameters studied | Health event/morbidity Health event/mortality Health care consumption and services Quality of life/health perception |
| Care consumption (detail) | Medicines consumption |
| Procedures | |
| Data collection method | paper |
| Classifications used | CDISC |
| Quality procedure(s) used | GCP/GVP |
| Participant monitoring | Yes |
| Monitoring procedures | Monitoring by contact with the referring doctor |
| Links to administrative sources | No |

| Promotion and access | |
|---|---|
| Promotion | |
| Access | |
| Dedicated website | https://www.roche.fr/fr/innovation-recherche- medicale/data-sharing-portail-d-information- partage-des-donnees.html |
| Presence of document that lists variables and coding procedures | Yes |
| Access to aggregated data | Access on specific project only |
| Access to individual data | Access on specific project only |
