

# ICOMET - Analysis of the genetic expression contribution towards the development of metastases in colon cancer patients with no lymph node involvement

Head :Olschwang Sylviane, CENTRE DE RECHERCHE EN CANCÉROLOGIE DE MARSEILLE UMR891 INSERM Saurin , CELLULES ENDOCRINES ET DIGESTIVES NORMALES ET NÉOPLASIQUES U865 INSERM

Last update : 07/24/2014 | Version : 1 | ID : 60160

## General

### Identification

Detailed name Analysis of the genetic expression contribution towards the development of metastases in colon cancer patients with no lymph node involvement

Sign or acronym ICOMET

CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation no. iCOMET/IPC 2009-002. Avis CCTIRS et CPP

### General Aspects

Medical area Cancer research

Health determinants Genetic

Others (details) Colon cancer with no lymph node involvement

Keywords Health episodes, onset, metastases

### Scientific investigator(s) (Contact)

Name of the director Olschwang

Surname Sylviane

Address 13009 MARSEILLE

Phone + 33 (0)4 91 22 34 06

Email sylviane.olschwang@inserm.fr

Unit CENTRE DE RECHERCHE EN CANCÉROLOGIE DE MARSEILLE UMR891 INSERM

Organization INSERM

Name of the director	Saurin
Address	69003 LYON
Phone	+ 33 (0)4 78 86 16 89
Email	jean-christophe.saurin@chu-lyon.fr
Unit	CELLULES ENDOCRINES ET DIGESTIVES NORMALES ET NÉOPLASIQUES U865 INSERM
Organization	INSERM

### Collaborations

Participation in projects, networks and consortia Yes

### Funding

Funding status Private

Details ASSOCIATION POUR LE RECHERCHE CONTRE LE CANCER (ARC) LABORATOIRE SERVIER INTERNATIONAL

### Governance of the database

Sponsor(s) or organisation(s) responsible CLCC INSTITUT PAOLI-CALMETTES

Organisation status Public

### Additional contact

### Main features

### Type of database

Type of database Study databases

Study databases (details) Cohort study

Database recruitment is carried out by an intermediary A selection of health institutions and services

Database recruitment is carried out as part of an interventional study No

Additional information regarding sample selection. Prospective Inclusion cut-off date: 01/08/2013  
Patients with colon cancer, 1/3 having metastases

at follow-up, 2/3 living without metastases at follow-up

## Database objective

Main objective                      General objective: to analyse genetic expression contribution towards the development of metastases  
Secondary objective: to analyse genetic expression contribution towards histologic and genetic types of colon cancer

Inclusion criteria                      Adults with sporadic colon cancer

## Population type

Age                                      Adulthood (19 to 24 years)  
Adulthood (25 to 44 years)  
Adulthood (45 to 64 years)

Population covered                      Sick population

Gender                                      Male  
Woman

Geography area                      National

Detail of the geography area                      Multicentric cohort throughout France (40 centres):

## Data collection

### Dates

Date of first collection (YYYY or MM/YYYY)                      09/2009

Date of last collection (YYYY or MM/YYYY)                      02/2019

## Size of the database

Size of the database (number of individuals)                      [1000-10 000[ individuals

Details of the number of individuals                      7800

## Data

Database activity                      Current data collection

Type of data collected                      Clinical data  
Biological data

Clinical data (detail)	Direct physical measures Medical registration
Biological data (detail)	Type of samples taken: Blood and fixed tissue
Presence of a biobank	Yes
Contents of biobank	Tissues DNA
Details of biobank content	DNA bank, tumour bank
Health parameters studied	Health event/morbidity Health event/mortality
<b>Procedures</b>	
Data collection method	Clinical examinations: direct input Biological analysis: direct input
Participant monitoring	Yes
Details on monitoring of participants	Follow-up duration: 54 months
Links to administrative sources	No
<b>Promotion and access</b>	
<b>Promotion</b>	
<b>Access</b>	
Terms of data access (charter for data provision, format of data, availability delay)	Data may be used by academic teams Access subject to favourable opinion of the scientific committee Raw clinical and biological database available Biological specimen aliquots for target characterisation available - To be decided if data may be used by industrial teams
Access to aggregated data	Access on specific project only
Access to individual data	Access on specific project only
