

# HypoCCS - The Global Hypopituitary Control and Complications Study (HypoCCS)-A Global Observational Research Program

Head :Médecin pharmacoépidémiologiste , Eli Lilly France

Last update : 01/09/2013 | Version : 2 | ID : 78

## General

### Identification

Detailed name The Global Hypopituitary Control and Complications Study (HypoCCS)-A Global Observational Research Program

Sign or acronym HypoCCS

CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation CNIL N°903074

### General Aspects

Medical area Endocrinology and metabolism

Keywords Somatotrope deficiency, adult, treatments, tolerance, quality of life

### Scientific investigator(s) (Contact)

Name of the director Médecin pharmacoépidémiologiste

Email pharmacoepi@lilly.com

Unit Eli Lilly France

### Collaborations

### Funding

Funding status Private

Details Eli Lilly and Company

### Governance of the database

Sponsor(s) or organisation(s) responsible Eli Lilly

Organisation status	Private
Additional contact	
Main features	
Type of database	
Type of database	Study databases
Study databases (details)	Longitudinal study (except cohorts)
Database recruitment is carried out by an intermediary	A selection of health institutions and services
Database recruitment is made on the basis of:	Medication(s) taken
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	Patients recruited by endocrinologists
Database objective	
Main objective	Primary objective: long-term follow-up of the clinical change and of the tolerance in patients with a somatotrope deficiency whether or not treated with somatropin (Umatrope®)
Inclusion criteria	<ul style="list-style-type: none"> <li>- Adult patients suffering from growth hormone deficiency secondary to a hypothalamic or pituitary disease appearing in adulthood or suffering from a growth hormone deficiency since childhood,</li> <li>- having terminated their growth (epiphyseal closure),</li> <li>- having no contraindications to the treatment such as are specified in the summary of product characteristics.</li> </ul>
Population type	
Age	<ul style="list-style-type: none"> <li>Adulthood (19 to 24 years)</li> <li>Adulthood (25 to 44 years)</li> <li>Adulthood (45 to 64 years)</li> <li>Elderly (65 to 79 years)</li> </ul>
Population covered	Sick population
Gender	<ul style="list-style-type: none"> <li>Male</li> <li>Woman</li> </ul>

Geography area	International
Detail of the geography area	international
<b>Data collection</b>	
<b>Dates</b>	
Date of first collection (YYYY or MM/YYYY)	2003
Date of last collection (YYYY or MM/YYYY)	2013
<b>Size of the database</b>	
Size of the database (number of individuals)	[1000-10 000[ individuals
Details of the number of individuals	recruitment closed
<b>Data</b>	
Database activity	Data collection completed
Type of data collected	Clinical data Declarative data Paraclinical data Biological data
Clinical data (detail)	Direct physical measures Medical registration
Declarative data (detail)	Paper self-questionnaire
Paraclinical data (detail)	ECG, MRI, Scanner (if available)
Biological data (detail)	IGF-I, lipidic and glycemic profile, hormone assays (if available)
Presence of a biobank	No
Health parameters studied	Health event/morbidity Quality of life/health perception
<b>Procedures</b>	
Data collection method	Data collection notebook and questionnaire
Participant monitoring	Yes

Details on monitoring of participants	Followed for 10 to 10 years according to the date of inclusion
---------------------------------------	--

Links to administrative sources	No
---------------------------------	----

## Promotion and access

### Promotion

Link to the document	<a href="http://tinyurl.com/Pubmed-HYPOCCS">http://tinyurl.com/Pubmed-HYPOCCS</a>
