

SHARE - Survey of Health, Ageing, and Retirement in Europe (enquête sur la santé, le vieillissement et la retraite en Europe)

Head :Gendre Ludivine
Joel Marie-Eve
Dormont Brigitte

Last update : 08/06/2014 | Version : 2 | ID : 60107

General

Identification

Detailed name	Survey of Health, Ageing, and Retirement in Europe (enquête sur la santé, le vieillissement et la retraite en Europe)
---------------	--

Sign or acronym	SHARE
-----------------	-------

CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation	CNIL: 24/01/2013
--	------------------

General Aspects

Medical area	Geriatrics
--------------	------------

Health determinants	Occupation Social and psychosocial factors
---------------------	---

Keywords	Perceived health, objective health, cognitive tests, morphological data, physical tests, medical history, risk behaviours, healthcare usage, environment
----------	--

Scientific investigator(s) (Contact)

Name of the director	Gendre
----------------------	--------

Surname	Ludivine
---------	----------

Email	ludivine.gendre@fondation-dauphine.fr
-------	---------------------------------------

Organization	Université Paris
--------------	------------------

Name of the director	Joel
----------------------	------

Surname	Marie-Eve
---------	-----------

Address	75775 PARIS
---------	-------------

Phone	+33 (0)1 44 05 43 22
Email	Marie-eve.joel@dauphine.fr
Organization	Université Paris
Name of the director	Dormont
Surname	Brigitte
Address	75 775 PARIS
Email	Brigitte.dormont@dauphine.fr
Organization	Université Paris
Collaborations	
Participation in projects, networks and consortia	Yes
Funding	
Funding status	Public
Details	Commission européenne, Ministère de l'enseignement supérieur et de la recherche, CNSA, EHESS, IReSP
Governance of the database	
Sponsor(s) or organisation(s) responsible	Université Paris-Dauphine
Organisation status	Public
Sponsor(s) or organisation(s) responsible	INSEE - Institut national de la statistique et des études économiques
Organisation status	Public
Sponsor(s) or organisation(s) responsible	IRDES
Organisation status	Public
Additional contact	
Main features	
Type of database	

Type of database	Study databases
Study databases (details)	Longitudinal study (except cohorts)
Database recruitment is carried out by an intermediary	A population file
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	Prospective Inclusion cut-off date: indefinite Sampling carried out by INSEE
Database objective	
Main objective	General objective: to analyse age-related economic and social problems and to enable cross-country comparison. Secondary objectives: - to analyse the relationships between health, ageing, and healthcare usage; - to analyse the role of social, economic and institutional contexts on the health of those aged 50+; - to analyse the issues surrounding senior citizen activity (employment, social capital etc.)
Inclusion criteria	All individuals living in ordinary households aged 50 and over (eligible according to age), plus their spouses (eligible "as spouse"), independent of their age. All those eligible according to age will be interviewed in Wave 1. Only one eligible person is drawn in Wave 2. As such a maximum of two people per household are interviewed.
Population type	
Age	Adulthood (45 to 64 years) Elderly (65 to 79 years) Great age (80 years and more)
Population covered	General population
Gender	Male Woman
Geography area	National
Detail of the geography area	Wave 1: 7 regions throughout metropolitan France Wave 2-3: 8 regions regions throughout metropolitan France Wave 4 and after: the entire metropolitan territory At present 19 European countries and Israel have participated in at least one of the first five waves of SHARE: Austria, Belgium,

Czech Republic, Denmark, France, Estonia, Germany, Greece, Hungary, Ireland, Israel, Italy, Luxembourg, the Netherlands, Poland, Portugal, Slovenia, Spain, Sweden and Switzerland. France has participated in all waves of the survey.

Data collection

Dates

Date of first collection (YYYY or MM/YYYY) 01/2004

Size of the database

Size of the database (number of individuals) [1000-10 000[individuals

Details of the number of individuals Vague 1 : 3193 Vague 2 : 2967 Vague 3 : 2385 Vague 4 : 5850 Objectif/Goal vague 5 : 4000-5000

Data

Database activity Current data collection

Type of data collected Declarative data
Paraclinical data

Declarative data (detail) Face to face interview

Paraclinical data (detail) 1. Height and weight 2. Physical performance tests: Grip strength - Spirometry breathing test - Walking test (patients 75 years and older) - The "chair lift" test (patients 75 years and older), 3. Cognitive performance tests: - Episodic memory for learning and memorisation (e.g. memorisation of 10 words, giving the most animal names possible within a limited time period, calculation exercises etc.) - verbal fluency test for executive functions.

Presence of a biobank No

Health parameters studied Health event/morbidity
Health event/mortality
Quality of life/health perception

Procedures

Data collection method Self-administered questionnaire: manual input from a paper questionnaire Interviews: face-to-face: direct input by researcher

Participant monitoring Yes

Details on monitoring of participants	Indefinite duration
Links to administrative sources	Yes
Linked administrative sources (detail)	SNIIRAM and RNIPP
