Main objective	<p>Primary:</p> <ul style="list-style-type: none"> - To estimate the frequency of patients admitted with headaches and to estimate the frequency of patients diagnosed with migraine. - To characterise patients diagnosed with migraines attending emergency services based on demographic data and migraine history (age, severity). - To describe the treatment of patients diagnosed with a migraine during emergency service consultation. <p>Secondary:</p> <ul style="list-style-type: none"> - To describe the treatment of patients diagnosed with a migraine according to the type of migraine. - To describe the frequency of patients diagnosed with a migraine and their treatment by emergency structure type. - To describe treatment follow-up.
Inclusion criteria	<ul style="list-style-type: none"> - Patients aged 18 or older. - Patients deemed capable of answering the

questions.

- Patients agreeing to participate in the survey.
- Patients admitted to emergency department

Population type

Age
Adulthood (19 to 24 years)
Adulthood (25 to 44 years)
Adulthood (45 to 64 years)
Elderly (65 to 79 years)
Great age (80 years and more)

Population covered
Sick population

Gender
Male
Woman

Geography area
National

Detail of the geography area
Metropolitan France

Data collection

Dates

Date of first collection (YYYY or MM/YYYY)
2006

Date of last collection (YYYY or MM/YYYY)
2008

Size of the database

Size of the database (number of individuals)
< 500 individuals

Details of the number of individuals
479

Data

Database activity
Data collection completed

Type of data collected
Clinical data
Declarative data

Clinical data (detail)
Direct physical measures
Medical registration

Declarative data (detail)
Face to face interview

Presence of a biobank
No

Health parameters studied

Health event/morbidity

Procedures

Data collection method

Paper CRF

Participant monitoring

Yes

Details on monitoring of participants

6-8 weeks

Links to administrative sources

No

Promotion and access

Promotion

Access

Terms of data access (charter for data provision, format of data, availability delay)

Submission of project to the Pfizer scientific team.

Access to aggregated data

Access on specific project only

Access to individual data
