| Main features  |  |
| Type of database   |  |
| Type of database   | Study databases  |
| Study databases (details)  | Not-repeated cross-sectional studies (except case control studies)   |
| Database recruitment is carried out by an intermediary                 | A selection of health institutions and services  |
| Database recruitment is carried out as part of an interventional study | No   |
| Additional information regarding sample selection.                     | Any adult consulting for the first time for psoriasis in one of the 35 participating centers was included in the study.  |
| Database objective   |  |
| Main objective   | <p>Little information is available on care patterns of psoriasis patients before their first consultation for psoriasis. A feeling often transmitted id that patients "wander" before their first consultation for psoriasis.</p> <p>The objective of this study is to gather and analyze data on care patterns for patients affected by psoriasis before a first consultation for psoriasis in dermatology.</p> |
| Inclusion criteria   | - age equal or superior to 18  |
| Population type  |  |
| Age  | <p>Adulthood (19 to 24 years)</p> <p>Adulthood (25 to 44 years)</p> <p>Adulthood (45 to 64 years)</p> <p>Elderly (65 to 79 years)</p>  |
| Population covered   | Sick population  |
| Gender   | <p>Male</p> <p>Woman</p>   |
| Geography area   | National   |

Angers, Toulon, Lyon, Le Havre, Dijon, Joinville-le-Pont, Mantes-La-Jolie, Brunoy, Saint-Germain en Laye.

## Data collection

### Dates

Date of first collection (YYYY or MM/YYYY) 01/2012

Date of last collection (YYYY or MM/YYYY) 05/2012

### Size of the database

Size of the database (number of individuals) [500-1000[ individuals

Details of the number of individuals 751

### Data

Database activity Data collection completed

Type of data collected Clinical data  
Declarative data

Clinical data (detail) Direct physical measures  
Medical registration

Details of collected clinical data Clinical characteristics of psoriasis

Declarative data (detail) Face to face interview

Details of collected declarative data Clinical characteristics of psoriasis

Presence of a biobank No

Health parameters studied Health event/morbidity  
Health care consumption and services

Care consumption (detail) Hospitalization  
Medical/paramedical consultation  
Medicines consumption

### Procedures

Participant monitoring No
