Population covered	General population	
Gender	Male Woman	
Geography area	National	
Detail of the geography area	France	
Data collection		
Dates		
Date of first collection (YYYY or MM/YYYY)	06/2011	
Date of last collection (YYYY or MM/YYYY)	02/2012	
Size of the database		
Size of the database (number of individuals)	[1000-10 000[individuals	
Details of the number of individuals	2600	
Data		
Database activity	Data collection completed	
Type of data collected	Declarative data	
Declarative data (detail)	Paper self-questionnaire	
Presence of a biobank	No	
Health parameters studied	Health care consumption and services Quality of life/health perception Others	
Care consumption (detail)	Hospitalization Medical/paramedical consultation Medicines consumption	

Other (detail)	feeling of information, perception of health topics, sources of information, activity limitations
Procedures	
Data collection method	online self-administered survey
Participant monitoring	No
Links to administrative sources	No
Promotion and access	
Promotion	
Access	
Terms of data access (charter for data provision, format of data, availability delay)	no possibility for the moment
Access to aggregated data	Access on specific project only

Access on specific project only

Access to individual data
