

KABP Tabac 2000 - Cross-Sectional Survey on Knowledge, Attitudes, Beliefs and Practices Towards Smoking in Ile de France

Head :Halfen Sandrine

Last update : 08/20/2014 | Version : 1 | ID : 8355

General	
Identification	
Detailed name	Cross-Sectional Survey on Knowledge, Attitudes, Beliefs and Practices Towards Smoking in Ile de France
Sign or acronym	KABP Tabac 2000
CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation	--
General Aspects	
Medical area	Cancer research General practice Pneumology
Health determinants	Addictions Nutrition Social and psychosocial factors
Others (details)	Smoking
Keywords	Attitudes, Beliefs, Behaviours, Smoking, Opinions, Prevention, Perception, Risk
Scientific investigator(s) (Contact)	
Name of the director	Halfen
Surname	Sandrine
Address	43 rue Beaubourg, 75003, Paris, France
Email	s.halfen@ors-idf.org
Organization	Observatoire régional de santé

Collaborations	
Funding	
Funding status	Mixed
Details	Ligue contre le cancer, MILDT, Inserm, Fondation de France, ARC
Governance of the database	
Sponsor(s) or organisation(s) responsible	Observatoire régional de santé d'Île-de-France
Organisation status	Both
Additional contact	
Main features	
Type of database	
Type of database	Study databases
Study databases (details)	Not-repeated cross-sectional studies (except case control studies)
Database recruitment is carried out by an intermediary	A population file
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	Households were contacted at random. The "next birthday" method was used to select which household member should complete the survey. The sample was weighted by inverse of family size. A weighting procedure was also used to improve sample representation: age, gender and occupation distribution were adjusted to the Ile de France population distribution.
Database objective	
Main objective	To investigate knowledge, attitudes and beliefs towards smoking in a population sample from the Île-de-France region and to obtain information on smoking practices in that area.
Inclusion criteria	- Aged 18 to 75 years old - living in Île-de-France - French speaking

Population type	
Age	Adulthood (19 to 24 years) Adulthood (25 to 44 years) Adulthood (45 to 64 years) Elderly (65 to 79 years)
Population covered	General population
Gender	Male Woman
Geography area	Regional
French regions covered by the database	Île-de-France
Detail of the geography area	Île-de-France
Data collection	
Dates	
Date of first collection (YYYY or MM/YYYY)	2000
Size of the database	
Size of the database (number of individuals)	[500-1000[individuals
Details of the number of individuals	939
Data	
Database activity	Data collection completed
Type of data collected	Declarative data
Declarative data (detail)	Phone interview
Presence of a biobank	No
Health parameters studied	Others
Other (detail)	Knowledge, attitudes, beliefs and behaviours
Procedures	
Participant monitoring	No

Links to administrative sources	No
Promotion and access
