## Data collection

### Dates

Date of first collection (YYYY or MM/YYYY) 2008

Date of last collection (YYYY or MM/YYYY) 2010

### Size of the database

Size of the database (number of individuals) [500-1000[ individuals

Details of the number of individuals 700

### Data

Database activity Data collection completed

Type of data collected Clinical data

Clinical data (detail) Direct physical measures

Declarative data (detail) Paper self-questionnaire

Presence of a biobank No

Health parameters studied Health care consumption and services

Care consumption (detail) Medical/paramedical consultation  
Medicines consumption

### Procedures

Classifications used CIM 10

Participant monitoring Yes

Details on monitoring of participants 6 months

Links to administrative sources No
