

# EPIMOMS - Epidepiology of severe maternal morbidity

Head :Bouvier-Colle Marie-Hélène, Unité 953 Inserm de Recherche Épidémiologique sur la Santé périnatale et la Santé des Femmes et des Enfants  
Deneux-Tharaux Catherine, Unité 953 Inserm de Recherche Épidémiologique sur la Santé périnatale et la Santé des Femmes et des Enfants

Last update : 01/24/2014 | Version : 1 | ID : 7613

## General

### Identification

Detailed name Epidepiology of severe maternal morbidity

Sign or acronym EPIMOMS

CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation CNIL n°912210 / CCTIRS n°12.060

### General Aspects

Health determinants Genetic

Keywords epidemiology, pregnancy, complication

### Scientific investigator(s) (Contact)

Name of the director Bouvier-Colle

Surname Marie-Hélène

Address 82, av Denfert-Rochereau, 75014 Paris

Phone +33 (0)1 42 34 55 72

Email marie-helene.bouvier-colle@inserm.fr

Unit Unité 953 Inserm de Recherche Épidémiologique sur la Santé périnatale et la Santé des Femmes et des Enfants

Organization Institut national de la santé et de la recherche médicale -

Name of the director Deneux-Tharaux

Surname Catherine

Address	82, av Denfert-Rochereau, 75014 Paris
Phone	+33 (0)1 42 34 55 79
Email	catherine.deneux-tharaux@inserm.fr
Unit	Unité 953 Inserm de Recherche Épidémiologique sur la Santé périnatale et la Santé des Femmes et des Enfants
Organization	Institut national de la santé et de la recherche médicale -

## Collaborations

## Funding

Funding status	Public
----------------	--------

Details	- Institut national de la santé et de la recherche médicale - INSERM - Agence nationale de la recherche - ANR programme blanc 2010 - Agence régionale de santé - ARS Ile-de-France
---------	--

## Governance of the database

Sponsor(s) or organisation(s) responsible	Institut national de la santé et de la recherche médicale - INSERM
---	--

Organisation status	Public
---------------------	--------

## Additional contact

## Main features

### Type of database

Type of database	Study databases
------------------	-----------------

Study databases (details)	Longitudinal study (except cohorts)
---------------------------	-------------------------------------

Database recruitment is carried out by an intermediary	A selection of health institutions and services
--	---

Database recruitment is carried out as part of an interventional study	No
--	----

Additional information regarding sample selection.	A local referent in each maternity service is in charge of identifying severe maternal morbidity cases.
--	---

## Database objective

Main objective Identify the frequency of complications along the pregnancy, their causes and case management.

Inclusion criteria woman - adult - pregnant from 22 weeks of amenorrhea or during childbirth or having given birth during the past 42 days.

## Population type

Age Adulthood (19 to 24 years)  
Adulthood (25 to 44 years)

Population covered General population

Gender Woman

Geography area Regional

French regions covered by the database Alsace Champagne-Ardenne Lorraine  
Auvergne Rhône-Alpes  
Île-de-France  
Normandie

Detail of the geography area 9 prenatal networks in 7 regions of France : Alsace, Auvergne, Basse-Normandie, Ile-de-France, Lorraine and Rhône-Alpes.

## Data collection

### Dates

Date of first collection (YYYY or MM/YYYY) 04/2012

Date of last collection (YYYY or MM/YYYY) 04/2013

## Size of the database

Size of the database (number of individuals) [1000-10 000[ individuals

Details of the number of individuals 6000 subjects - 2000 cases (women with severe maternal morbidity) - 4000 control (women without severe maternal morbidity)

## Data

Database activity Data collection completed

Type of data collected	Clinical data Declarative data
Clinical data (detail)	Direct physical measures
Declarative data (detail)	Face to face interview
Presence of a biobank	No
Health parameters studied	Health event/morbidity Health event/mortality
<b>Procedures</b>	
Data collection method	Data recorded on electronic copybook, developed by a specialized company that guarantees IT safety.
Participant monitoring	Yes
Details on monitoring of participants	Follow-up until end of hospitalization for severe maternal morbidity.
Links to administrative sources	No
<b>Promotion and access</b>	
<b>Promotion</b>	
<b>Access</b>	
Terms of data access (charter for data provision, format of data, availability delay)	Contact scientific investigator.
Access to aggregated data	Access on specific project only
Access to individual data	Access on specific project only
