Unit Inserm U1018 ? Centre for Research in Epidemiology and Population Health ? Team: Gender, Sexual and Reproductive Health

Organization National Institute of Health and Medical Research

Name of the director Godart

Surname	Nathalie
Email	nathalie.godart@imm.fr
Organization	IMM
Collaborations	
Funding	
Funding status	Publique
Details	INSERM
Governance of the database	
Sponsor(s) or organisation(s) responsible	INSERM - National Institute of Health and Medical Research
Organisation status	Public
Additional contact	
Main features	
Type of database	
Type of database	Bases de données issues d'enquêtes
Study databases (details)	Etudes cas-témoins
Database recruitment is carried out by an intermediary	Via une sélection de services ou établissements de santé
Database recruitment is carried out as part of an interventional study	Non
Additional information regarding sample selection.	705 patients souffrant de conduites addictives et 786 témoins
Database objective	
Main objective	Vérifier si les troubles anxieux sont davantage fréquents chez les femmes souffrant de troubles alimentaires
Inclusion criteria	Patients souffrant de conduites addictives (tirage au sort multicentrique)
Population type	

Age	Adolescence (13 à 18 ans) Adulte (19 à 24 ans) Adulte (25 à 44 ans) Adulte (45 à 64 ans)
-----	---

Population covered	Sujets malades
--------------------	----------------

Gender	Féminin
--------	---------

Geography area	National
----------------	----------

Detail of the geography area	France
------------------------------	--------

Data collection

Dates

Date of first collection (YYYY or MM/YYYY)	1994
--	------

Date of last collection (YYYY or MM/YYYY)	06/1997
---	---------

Size of the database

Size of the database (number of individuals)	[1000-10 000[individus
--	-------------------------

Details of the number of individuals	1491
--------------------------------------	------

Data

Database activity	Collecte des données terminée
-------------------	-------------------------------

Type of data collected	Données cliniques Données déclaratives
------------------------	---

Clinical data (detail)	Examen médical
------------------------	----------------

Details of collected clinical data	Mini International Neuropsychiatric Interview, diagnostic du trouble alimentaire, trouble de l'humeur, anxiété, épisodes dépressifs, IMC, Indice de Quetelet
------------------------------------	--

Details of collected declarative data	Données sociodémographiques,
---------------------------------------	------------------------------

Presence of a biobank	Non
-----------------------	-----

Health parameters studied	Événements de santé/morbidité
---------------------------	-------------------------------

Procedures

Data collection method	Mini International Neuropsychiatric Interview (MINI), French DSM-IV version
------------------------	---

Participant monitoring	Non
------------------------	-----

Links to administrative sources	Non
---------------------------------	-----

Promotion and access

Promotion
