

- The Digestive Tumors Registry of the Calvados (qualified registry)

Head :Launoy Guy, Cancers et populations ERI 3 INSERM EA 3936 Université Caen Basse Normandie
Bouvier Véronique, Cancers et populations ERI 3 INSERM EA 3936 Université Caen Basse Normandie

Last update : 01/12/2012 | Version : 1 | ID : 207

General	
Identification	
Detailed name	The Digestive Tumors Registry of the Calvados (qualified registry)
CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation	998018
General Aspects	
Medical area	Cancer research
Others (details)	Cancer of the digestive system
Keywords	epidemiology, health, evaluation
Scientific investigator(s) (Contact)	
Name of the director	Launoy
Surname	Guy
Address	Avenue Côte de Nacre 14032 Caen Cedex
Phone	02 31 06 51 20
Email	guy.launoy@unicaen.fr
Unit	Cancers et populations ERI 3 INSERM EA 3936 Université Caen Basse Normandie
Organization	CHU
Name of the director	Bouvier
Surname	Véronique

Address	CHU Caen
Phone	02 31 06 51 22
Email	bouvier-v@chu-caen.fr
Unit	Cancers et populations ERI 3 INSERM EA 3936 Université Caen Basse Normandie
Organization	CHU
Collaborations	
Funding	
Funding status	Public
Details	Institut national de veille sanitaire - InVS Institut national du cancer - INCA
Governance of the database	
Sponsor(s) or organisation(s) responsible	CHU Caen
Organisation status	Public
Sponsor(s) or organisation(s) responsible	InVS et INCA
Organisation status	Public
Additional contact	
Main features	
Type of database	
Type of database	Morbidity registers
Database recruitment is carried out by an intermediary	A selection of health institutions and services
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	Selection of subjects having the required inclusion criteria. Several sources are used to identify cases: Anatomopathological laboratories

PMSI
Establishments specializing in cancer
Health Insurance
Regional Registries

Database objective

Main objective

As with all of the registries in the FRANCIM network, the registry contributes in the development on a regular basis of incidence estimations of cancers for all of France. It contributes particularly to interpreting the trends in the incidence for cancer of the digestive system. In the same way, it participates in the work of the network pertaining to the survival of cancers and in all of the investigations concerning cancers of the digestive system provided for in the working program with the Institut de Veille Sanitaire. Locally, the registry responds to all invitations from the local health authorities (URCAM, DRASS, ARH) when planning the organization of care in cancerology.

Inclusion criteria

Notified health event(s): Invasive cancers for all of the digestive locations and invasive and in situ cancers for colon and rectum cancers

Population type

Age

Newborns (birth to 28 days)
Infant (28 days to 2 years)
Early childhood (2 to 5 years)
Childhood (6 to 13 years)
Adolescence (13 to 18 years)
Adulthood (19 to 24 years)
Adulthood (25 to 44 years)
Adulthood (45 to 64 years)
Elderly (65 to 79 years)
Great age (80 years and more)

Population covered

Sick population

Gender

Male
Woman

Geography area

Departmental

French regions covered by the database

Normandie

Detail of the geography area

Calvados

Data collection

Dates

Date of first collection (YYYY or MM/YYYY) 1978

Date of last collection (YYYY or MM/YYYY) 2008

Size of the database

Size of the database (number of individuals) [10 000-20 000[individuals

Details of the number of individuals 1978-2008: 20 149 individuals, 20 684 cases

Data

Database activity Data collection completed

Type of data collected
Clinical data
Paraclinical data
Biological data
Administrative data

Clinical data (detail) Direct physical measures

Paraclinical data (detail) Diagnosis examinations that contribute to the staging of the disease

Biological data (detail) Tumor markers

Administrative data (detail) Identification data

Presence of a biobank No

Health parameters studied
Health event/morbidity
Health event/mortality
Health care consumption and services

Care consumption (detail) Hospitalization

Procedures

Data collection method
Transmission of a computer or paper file on request for reporting cases
Consultation of medical dossiers on site

Classifications used ICDO 3

Participant monitoring Yes

Details on monitoring of participants

Vital status A follow-up is conducted passively and systematically, and actively on the sample according to the studies (using the medical dossier and the family doctor).

Access

Terms of data access (charter for data provision, format of data, availability delay)

To access our data within the framework of research projects, project initiators must contact Pr. Guy Launoy or Dr. Véronique Bouvier. If the project concerns only digestive tumors of Calvados, we will discuss the question together rapidly. If the project involves the Basse-Normandie cancer registries, this is discussed at the meeting of the Fédération des registres de Basse-Normandie and if several registries of the FRANCIM network are associated, the subject must be presented during a Francim meeting.

Access to aggregated data

Access on specific project only

Access to individual data

Access on specific project only
