Unit HOPITAL SAINTE-ANNE ET INSERM U675

Organization INSTITUT NATIONAL DE LA SANTE ET DE LA RECHERCHE MEDICALE -

## Collaborations

Participation in projects, networks and consortia Yes

## Funding

Funding status Mixed

Details Caisse régionale d'assurance maladie de Champagne-Ardenne, Mission Interministérielle de Lutte contre la Drogue et la Toxicomanie, Institut de REcherche sur les Boissons (I.R.E.B), fonds privés

## Governance of the database

Sponsor(s) or organisation(s) responsible Inserm

Organisation status Public

## Additional contact

## Main features

### Type of database

Type of database Study databases

Study databases (details) Cohort study

Database recruitment is carried out by an intermediary A population file

Database recruitment is carried out as part of an interventional study No

Additional information regarding sample selection. Prospective Inclusion cut-off date: 01/04/2007  
Number of required subjects: [1,000-5,000]

## Database objective

Main objective General Objective: To evaluate the effect of psychological, genetic and anamnestic variables on addiction at two years Secondary Objectives: - to highlight intermediate traits associated with addictive disorders at two years - to highlight the effect of gene x environment interactions on the development of dependence.

Inclusion criteria	Secondary school students and legal age students in the Champagne-Ardennes region who have consented to participate. No exclusion criteria.
--------------------	---------------------------------------------------------------------------------------------------------------------------------------------

## Population type

Age	Adulthood (19 to 24 years)
-----	----------------------------

Population covered	General population
--------------------	--------------------

Gender	Male Woman
--------	---------------

Geography area	Regional
----------------	----------

French regions covered by the database	Alsace Champagne-Ardenne Lorraine
----------------------------------------	-----------------------------------

Detail of the geography area	20 centres throughout the Champagne-Ardenne region
------------------------------	----------------------------------------------------

## Data collection

### Dates

Date of first collection (YYYY or MM/YYYY)	03/2007
--------------------------------------------	---------

Date of last collection (YYYY or MM/YYYY)	04/2009
-------------------------------------------	---------

### Size of the database

Size of the database (number of individuals)	[1000-10 000[ individuals
----------------------------------------------	---------------------------

Details of the number of individuals	3046
--------------------------------------	------

### Data

Database activity	Current data collection
-------------------	-------------------------

Type of data collected	Declarative data Biological data
------------------------	-------------------------------------

Declarative data (detail)	Paper self-questionnaire
---------------------------	--------------------------

Biological data (detail)	Type of samples taken: saliva
--------------------------	-------------------------------

Presence of a biobank	Yes
-----------------------	-----

Contents of biobank	DNA
Details of biobank content	DNA bank
Health parameters studied	Health event/morbidity
<b>Procedures</b>	
Data collection method	Self-administered questionnaire: input from a paper questionnaire (Optical input) Biological analysis: direct input
Participant monitoring	Yes
Details on monitoring of participants	Follow-up duration: 2 years
Links to administrative sources	Yes
Linked administrative sources (detail)	Database used: CRAM
<b>Promotion and access</b>	
<b>Promotion</b>	
Link to the document	<a href="http://www.ncbi.nlm.nih.gov/pubmed/?term=sage+AND+Susceptibility+Addiction+Gene+Environment">http://www.ncbi.nlm.nih.gov/pubmed/?term=sage+AND+Susceptibility+Addiction+Gene+Environment</a>
Description	List of publications in Pubmed
<b>Access</b>	
Terms of data access (charter for data provision, format of data, availability delay)	Data may be used by academic teams. Access according to temporary contract. Data may not be used by industrial teams
Access to aggregated data	Access on specific project only
Access to individual data	Access on specific project only
