Email	bnd@caissedesdepots.fr
Unit	ACTUARIAL AND STATISTICS
Organization	Caisse des dépôts, CNRACL
Collaborations	
Participation in projects, networks and consortia	Yes
Details	French National Prevention Fund (FNP) and partnerships
Funding	
Funding status	Public
Details	CNRACL
Governance of the database	
Sponsor(s) or organisation(s) responsible	Caisse des dépôts,CNRACL
Organisation status	Public
Presence of scientific or steering committees	Yes
Additional contact	
Main features	
Type of database	
Type of database	Health relevant administrative databases
Database objective	
Main objective	The aim of the database is to provide data on occupational accidents and diseases. It also allows statistical information to be centralised and exploited, so as to formulate a comprehensive national plan and risk analysis. This database shall enable the development of occupational risk prevention and to provide public authorities and scientists with these data in order to develop a prevention policy.
Inclusion criteria	All persons receiving disability compensation from the National Pension Fund for Local Government

Officials (Caisse Nationale de Retraites des Agents des Collectivités Locales).

Population type

Age
Adulthood (19 to 24 years)
Adulthood (25 to 44 years)
Adulthood (45 to 64 years)

Population covered
General population

Gender
Male
Woman

Geography area
National

Detail of the geography area
France

Data collection

Dates

Date of first collection (YYYY or MM/YYYY)
2001

Size of the database

Size of the database (number of individuals)
Greater than 20 000 individuals

Details of the number of individuals
445,773 regional workers; 209,683 hospital workers

Data

Database activity
Current data collection

Type of data collected
Administrative data

Administrative data (detail)
Community overview. Patient characteristics. General Data on Work-Related/Service/Commuting Accidents/Occupational Disease. General data on work-related or occupational diseases. Number of work- and service-related accidents and number of days absent.

Presence of a biobank
No

Health parameters studied
Health event/morbidity

Procedures

Data collection method	PRORISQ software updated by local communities.
Classifications used	National or specific repositories
Participant monitoring	No
Links to administrative sources	Yes
Linked administrative sources (detail)	CNRACL database
Promotion and access	
Promotion	
Access	
Dedicated website	https://www.cdc.retraites.fr/portail/spip.php?page=article&id_article=2160&cible=_employeur
Presence of document that lists variables and coding procedures	No
Terms of data access (charter for data provision, format of data, availability delay)	No access to database.
Access to aggregated data	Access not yet planned
Access to individual data	No access
