Main features

Type of database

Type of database Study databases

Study databases (details) Not-repeated cross-sectional studies (except case control studies)

Database recruitment is carried out by an intermediary A population file

Database recruitment is made on the basis of: Another treatment or procedure

Database recruitment is carried out as part of an interventional study No

Additional information regarding sample selection. Quota method with stratification by sex, age and city of residence

Database objective

Main objective To provide data concerning the health, behaviour and social environment of the Guadeloupean population

Inclusion criteria Individuals selected randomly who agree to participate in the study

Population type

Age Adulthood (25 to 44 years)
Adulthood (45 to 64 years)

Elderly (65 to 79 years)

Population covered General population

Pathology

Gender Male
 Woman

Geography area Local

French regions covered by the database Guadeloupe

Detail of the geography area Guadeloupe

Data collection

Dates

Date of first collection (YYYY or MM/YYYY) 2007

Date of last collection (YYYY or MM/YYYY) 2007

Size of the database

Size of the database (number of individuals) [1000-10 000[individuals

Details of the number of individuals 1005

Data

Database activity Data collection completed

Type of data collected Clinical data
 Declarative data

Clinical data (detail) Medical registration

Details of collected clinical data Anthropometric data, blood pressure.

Declarative data (detail) Face to face interview

Details of collected declarative data Health beliefs, knowledge and practices. Social environment

Presence of a biobank No

Health parameters studied	Health event/morbidity Health event/mortality Quality of life/health perception
---------------------------	---

Procedures

Data collection method	Face to face by a researcher
------------------------	------------------------------

Quality procedure(s) used	Epi Info, EpiData
---------------------------	-------------------

Participant monitoring	No
------------------------	----

Followed pathology	
--------------------	--

Links to administrative sources	Yes
---------------------------------	-----

Linked administrative sources (detail)	Random selection from the 1999 INSEE census
