

FLAHS French League Against Hypertension Survey - Repeated cross-sectional study on the lifestyle and treatment of hypertensive patients

Head :Girerd Xavier, Cardiovascular Prevention Unit Institut E3M

Last update : 10/19/2017 | Version : 1 | ID : 73134

General	
Identification	
Detailed name	Repeated cross-sectional study on the lifestyle and treatment of hypertensive patients
Sign or acronym	FLAHS French League Against Hypertension Survey
CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation	CNIL
General Aspects	
Medical area	Cardiology
Pathology (details)	Hypertension
Health determinants	Medicine
Keywords	cognitive complaint, FLASH, Hypertension, management, lifestyle, treatment
Scientific investigator(s) (Contact)	
Name of the director	Girerd
Surname	Xavier
Phone	+33 (0)1 42 17 57 76
Email	xavier.girerd@psl.aphp.fr
Unit	Cardiovascular Prevention Unit Institut E3M
Organization	Groupe Hospitalier Pitié-Salpêtrière
Collaborations	
Participation in projects,	Yes

networks and consortia

Details	Kantar Health France
---------	----------------------

Funding

Funding status	Mixed
----------------	-------

Details	Comité Français de Lutte contre l'HTA, Directorate General, AVC Plan
---------	--

Governance of the database

Sponsor(s) or organisation(s) responsible	CFLHTA
---	--------

Organisation status	Private
---------------------	---------

Presence of scientific or steering committees	Yes
---	-----

Additional contact

Main features

Type of database

Type of database	Study databases
------------------	-----------------

Study databases (details)	Repeated cross-sectional studies (except case control studies)
---------------------------	--

Database recruitment is carried out by an intermediary	An administrative base or a register
--	--------------------------------------

Base or register (detail)	TNS Healthcare
---------------------------	----------------

Database recruitment is carried out as part of an interventional study	No
--	----

Database objective

Main objective	The objective of the FLAHS surveys is to discover the state of arterial hypertension in France between 2002 and 2012. Therefore, the prevalence of arterial hypertension and its treatments are monitored over time, using medication strategies used and therapeutic classes prescribed
----------------	--

Inclusion criteria	The FLAHS surveys use a sample made up of 20,000 households (family living under one roof or
--------------------	--

person living alone), representative of the population of French households and coming from the permanent sample frame of TNS Healthcare Subjects over 35 years of age.

Population type

Age	Adulthood (25 to 44 years) Adulthood (45 to 64 years) Elderly (65 to 79 years) Great age (80 years and more)
-----	---

Population covered	General population
--------------------	--------------------

Pathology

Gender	Male Woman
--------	---------------

Geography area	National
----------------	----------

Detail of the geography area	France
------------------------------	--------

Data collection

Dates

Date of first collection (YYYY or MM/YYYY)	2002
--	------

Date of last collection (YYYY or MM/YYYY)	2015
---	------

Size of the database

Size of the database (number of individuals)	[1000-10 000[individuals
--	---------------------------

Details of the number of individuals	42 000
--------------------------------------	--------

Data

Database activity	Current data collection
-------------------	-------------------------

Type of data collected	Declarative data
------------------------	------------------

Declarative data (detail)	Paper self-questionnaire
---------------------------	--------------------------

Details of collected declarative data	biometric data, their medical history, the existence of arterial hypertension (AH), their Blood Pressure (BP) measurements, their use of antihypertensive
---------------------------------------	---

	treatments
Presence of a biobank	No
Health parameters studied	Health event/morbidity Health care consumption and services
Care consumption (detail)	Medicines consumption
Procedures	
Participant monitoring	No
Followed pathology	
Links to administrative sources	No
Promotion and access	
Promotion
