Funding status Public

Details	Université de Lille
Governance of the database	
Sponsor(s) or organisation(s) responsible	Université de Lille
Organisation status	Public
Additional contact	
Main features	
Type of database	
Type of database	Study databases
Study databases (details)	Not-repeated cross-sectional studies (except case control studies)
Database recruitment is carried out by an intermediary	A population file
Database recruitment is made on the basis of:	Another treatment or procedure
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	All participants of the 2011 Swimming Championships of France
Database objective	
Main objective	The objective is to collect information on the state of (psychological and physiological) health of swimmers in comparison with the general population in order to gain a better understanding of the links between swimming, participation in competitions and health benefits.
Inclusion criteria	All participants of the 2011 Swimming Championships of France.
Population type	
Age	Adulthood (25 to 44 years)
Population covered	General population
Pathology	

Gender	Male Woman
Geography area	National
Detail of the geography area	France
Data collection	
Dates	
Date of first collection (YYYY or MM/YYYY)	2011
Date of last collection (YYYY or MM/YYYY)	2011
Size of the database	
Size of the database (number of individuals)	< 500 individuals
Details of the number of individuals	490
Data	
Database activity	Data collection completed
Type of data collected	Clinical data Declarative data
Details of collected clinical data	Height, weight, pulmonary function
Declarative data (detail)	Face to face interview
Details of collected declarative data	Mental health and social welfare (SF36), physical problems, vitality, emotional health, pain and perception of health. Physical activity: International Physical Activity Questionnaire (IPAQ). Drug consumption
Presence of a biobank	No
Health parameters studied	Health event/morbidity Quality of life/health perception
Procedures	
Data collection method	By students
Participant monitoring	No
