Organization CEE

### Collaborations

### Funding

Funding status	Public
Details	DARES / DREES / DGAFP / INSEE / DGLFLF / CEE
<b>Governance of the database</b>	
Sponsor(s) or organisation(s) responsible	DARES - Direction de l'Animation de la Recherche, des Etudes et des Statistiques
Organisation status	Public
Sponsor(s) or organisation(s) responsible	CEE - Centre d'études de l'emploi
Organisation status	Public
<b>Additional contact</b>	
<b>Main features</b>	
<b>Type of database</b>	
Type of database	Study databases
Study databases (details)	Not-repeated cross-sectional studies (except case control studies)
Database recruitment is carried out by an intermediary	A population file
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	Random sampling Two-tiered polling plan (contact the scientific managers)
<b>Database objective</b>	
Main objective	C.O.I. is a matched survey employers/employees on organizational changes and computerization, enriched with administrative data from both employers and employees. The objective is to measure the organizational changes of companies in terms of management and use of information and communication technologies and their effects on employees' work over a three-year period (2003-2006).
Inclusion criteria	Staff from private companies, some central civil service administrations and establishments in the

hospital sector with 10 employees and over, and employees from units with 20 employees and over in the private and hospital sector, with 10 employees and over in the civil service.

## Population type

Age  
Adulthood (19 to 24 years)  
Adulthood (25 to 44 years)  
Adulthood (45 to 64 years)

Population covered  
Sick population

Gender  
Male  
Woman

Geography area  
National

Detail of the geography area  
France

## Data collection

### Dates

Date of first collection (YYYY or MM/YYYY)  
1997

Date of last collection (YYYY or MM/YYYY)  
2006

### Size of the database

Size of the database (number of individuals)  
[10 000-20 000[ individuals

Details of the number of individuals  
14400

## Data

Database activity  
Data collection completed

Type of data collected  
Declarative data  
Administrative data

Declarative data (detail)  
Face to face interview  
Phone interview

Administrative data (detail)  
Enriching of survey files with administrative data from annual assessment interviews (EAE in French) and annual social data declarations (DADS in French).

Presence of a biobank	No
Health parameters studied	Quality of life/health perception
