

Poly - Case-control Study on Thyroid Cancer Risk in French Polynesia

Head :De Vathaire Florent

Last update : 08/13/2014 | Version : 2 | ID : 6067

General

Identification

Detailed name	Case-control Study on Thyroid Cancer Risk in French Polynesia
---------------	---------------------------------------------------------------

Sign or acronym	Poly
-----------------	------

CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation	CNIL
--------------------------------------------------------------------------------------------------------------------------	------

General Aspects

Medical area	Cancer research
--------------	-----------------

Pathology (details)	Impact of ESS
---------------------	---------------

Health determinants	Geography Nutrition Pollution
---------------------	-------------------------------------

Keywords	geographical study, French Polynesia, stable iodine, obesity, nuclear tests, thyroid cancer, case-control study, diet, incidence
----------	----------------------------------------------------------------------------------------------------------------------------------

Scientific investigator(s) (Contact)

Name of the director	De Vathaire
----------------------	-------------

Surname	Florent
---------	---------

Address	B2M - 114, rue Edouard Vaillant 94805 Villejuif Cedex
---------	-------------------------------------------------------

Phone	+ 33 (0)1 42 11 54 57
-------	-----------------------

Email	florent.devathaire@gustaveroussy.fr
-------	-------------------------------------

Organization	Institut National de la Santé et de la Recherche
--------------	--------------------------------------------------

Collaborations	
Funding	
Funding status	Mixed
Details	- Directorate of Nuclear Test Centres (DIRCEN) - French National Cancer League - Fondation de France - French Ministry of the Environment
Governance of the database	
Sponsor(s) or organisation(s) responsible	Institut National de la Santé et de la Recherche Médicale
Organisation status	Public
Additional contact	
Main features	
Type of database	
Type of database	Study databases
Study databases (details)	Case control study
Database recruitment is carried out by an intermediary	A population file An administrative base or a register
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	Subjects were selected from the cancer registry in French Polynesia.
Database objective	
Main objective	The objective is to assess the role of nuclear tests on the risk of thyroid cancer and to estimate the risk of cancer in subjects born in French Polynesia by studying 1) the role of certain elements and molecules present in diet, which are suspected of playing their own role in the risk of thyroid cancer, and investigating 2) the role of dietary intake in stable iodine consumption in the risk of thyroid cancer.
Inclusion criteria	- male or female - subjects - living in French Polynesia

Population type	
Age	Adulthood (19 to 24 years) Adulthood (25 to 44 years) Adulthood (45 to 64 years)
Population covered	General population
Gender	Male Woman
Geography area	Regional
Detail of the geography area	French Polynesia
Data collection	
Dates	
Date of first collection (YYYY or MM/YYYY)	1985
Date of last collection (YYYY or MM/YYYY)	2012
Size of the database	
Size of the database (number of individuals)	[500-1000[individuals
Details of the number of individuals	602 subjects - 229 differentiated thyroid cancers - 373 controls
Data	
Database activity	Current data collection
Type of data collected	Clinical data Declarative data
Clinical data (detail)	Direct physical measures
Details of collected clinical data	Data from the pathology and biology laboratories in Mamao Hospital.
Declarative data (detail)	Paper self-questionnaire
Details of collected declarative data	Subject dietary data.
Presence of a biobank	No

Health parameters studied	Health event/morbidity Health event/mortality Others
Other (detail)	Nutrition
Procedures	
Participant monitoring	Yes
Links to administrative sources	No
Promotion and access	
Promotion	
Link to the document	http://onlinelibrary.wiley.com/doi/10.1046/j.1365-3156.2000.00624.x/full
Access	
Terms of data access (charter for data provision, format of data, availability delay)	To be defined
Access to aggregated data	Access on specific project only
Access to individual data	Access on specific project only
