Main features

Type of database

Type of database	Study databases
Study databases (details)	Longitudinal study (except cohorts)
Database recruitment is carried out by an intermediary	A selection of health institutions and services
Database recruitment is is made on the basis of:	Medication(s) taken
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	random sampling in clusters

Database objective

Main objective	Describe the arrangements for caring for patients treated by a combination of treatments including

	ATAZANAVIR according to the grounds for introducing the treatment (virological failure of the previous treatment or other)
Inclusion criteria	M or F, aged 18 years or older, seropositive for HIV-1, treated via a combination of ARV treatments including ATV for which the main reason for introduction of the current treatment was: - virological failure of the previous treatment OR - another reason.
Population type	
Age	Adulthood (19 to 24 years) Adulthood (25 to 44 years) Adulthood (45 to 64 years) Elderly (65 to 79 years) Great age (80 years and more)
Population covered	Sick population
Gender	Male Woman
Geography area	National
Detail of the geography area	National representativeness
Data collection	
Dates	
Date of first collection (YYYY or MM/YYYY)	2004
Date of last collection (YYYY or MM/YYYY)	2006
Size of the database	
Size of the database (number of individuals)	[500-1000[individuals
Details of the number of individuals	626
Data	
Database activity	Data collection completed
Type of data collected	Clinical data Declarative data Biological data

Clinical data (detail)	Direct physical measures Medical registration
Declarative data (detail)	Paper self-questionnaire
Biological data (detail)	cholesterol, TG, glycemia, bilirubin, liver enzymes, VL & CD4 (if available)
Presence of a biobank	No
Health parameters studied	Health event/morbidity Health care consumption and services Quality of life/health perception
Care consumption (detail)	Medicines consumption
Procedures	
Data collection method	Specific observation notebooks
Participant monitoring	Yes
Details on monitoring of participants	M3, M6, M12
Links to administrative sources	No
Promotion and access	
Promotion	
Access	
Terms of data access (charter for data provision, format of data, availability delay)	publication
Access to aggregated data	Access on specific project only
Access to individual data	Access on specific project only
