and healthy subjects

Database objective

Main objective

To specify the physiopathological processes  
resulting in alcohol-related brain abnormalities and  
neuropsychological disorders. To identify the  
factors explaining the heterogeneity of alcohol-  
related brain abnormalities and neuropsychological  
disorders. To investigate the neural substrates of  
Theory of Mind deficits in alcohol dependent

patients with no neurological complications. To examine the brain mechanisms underlying neuropsychological recovery in AL patients with abstinence.
