Having a pain that has been evolving for more than 3 months, requiring care (for the Chronic Pain observatory)

## Population type

Age  
Elderly (65 to 79 years)  
Great age (80 years and more)

Population covered  
Sick population

Gender  
Male  
Woman

Geography area  
National

Detail of the geography area  
France

## Data collection

### Dates

Date of first collection (YYYY or MM/YYYY)  
2009

Date of last collection (YYYY or MM/YYYY)  
2014

### Size of the database

Size of the database (number of individuals)  
[1000-10 000[ individuals

Details of the number of individuals  
in progress

## Data

Database activity  
Data collection completed

Type of data collected  
Clinical data  
Declarative data  
Paraclinical data  
Biological data  
Administrative data

Clinical data (detail)  
Direct physical measures

Declarative data (detail)  
Paper self-questionnaire

Paraclinical data (detail)  
Place of living, Driving a motor vehicle, Paramedical and social care (beneficiary of ALD status (long-term affection), APA (Personal Autonomy Allowances), mutual, etc.)

Biological data (detail)  
- Creatinine - HBA1C for the Diabetes observation

Administrative data (detail)	- Sex - Date of birth Level of education: primary, educational certificate, high school graduate, higher education - Current professional activity or date stopped - Social and occupational category - Marital status [single, living as a couple, divorced]
Presence of a biobank	Yes
Contents of biobank	DNA
Details of biobank content	Samples preserved for 15 years
Health parameters studied	Health event/morbidity Health event/mortality Health care consumption and services
Care consumption (detail)	Hospitalization Medical/paramedical consultation Medicines consumption
<b>Procedures</b>	
Data collection method	Collection of data for each of the visits, by the general practitioner, on an internet website devoted to each of the observatories.
Participant monitoring	Yes
Links to administrative sources	No
<b>Promotion and access</b>	
<b>Promotion</b>	
<b>Access</b>	
Terms of data access (charter for data provision, format of data, availability delay)	methods for accessing the database are currently being defined
Access to aggregated data	Access on specific project only
Access to individual data	Access on specific project only
