For all	
Email	c.suty-selton@chu-nancy.fr
Unit	CARDIOLOGIE CHU
Collaborations	
Participation in projects, networks and consortia	Yes
Funding	
Funding status	Public
Details	CPRC
Governance of the database	
Sponsor(s) or organisation(s) responsible	CHU Nancy
Organisation status	Public
Additional contact	
Main features	
Type of database	
Type of database	Morbidity registers
Database recruitment is carried out by an intermediary	A selection of health institutions and services
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	Prospective: Inclusion cut-off date not determined.
Database objective	
Main objective	To expand the clinicobiological data bank for patients treated for infective endocarditis at the CHU de Nancy since 1991; To prospectively expand this bank with new items covering different developmental and therapeutic aspects of the disease in detail; To develop a specimen bank (serum bank and plasma bank) in order to respond quickly to future issues in haematology (e.g. embolic risk markers).

Inclusion criteria	Patients from Lorraine hospitalised in CHU de Nancy for IE since 1991.
Population type	
Age	Adulthood (19 to 24 years) Adulthood (25 to 44 years) Adulthood (45 to 64 years)
Population covered	Sick population
Gender	Male Woman
Geography area	Regional
French regions covered by the database	Alsace Champagne-Ardenne Lorraine
Detail of the geography area	Lorraine
Data collection	
Dates	
Date of first collection (YYYY or MM/YYYY)	01/1991
Size of the database	
Size of the database (number of individuals)	[1000-10 000[individuals
Details of the number of individuals	[1000-5000[.
Data	
Database activity	Data collection completed
Type of data collected	Declarative data Biological data
Declarative data (detail)	Face to face interview
Biological data (detail)	Blood and plasma samples.
Presence of a biobank	Yes
Contents of biobank	Serum Plasma

Details of biobank content	Serum bank, plasma bank
Health parameters studied	Health event/morbidity Health event/mortality Health care consumption and services
Care consumption (detail)	Hospitalization Medical/paramedical consultation Medicines consumption
Procedures	
Data collection method	Clinical Examinations: handwritten. Biological analysis: handwritten.
Participant monitoring	Yes
Details on monitoring of participants	Indefinite duration
Links to administrative sources	No
