Main features

Type of database

| | |
|---------------------------|-----------------|
| Type of database | Study databases |
| Study databases (details) | Cohort study |

| | |
|--|---|
| Database recruitment is carried out by an intermediary | A selection of health institutions and services |
|--|---|

| | |
|--|----|
| Database recruitment is carried out as part of an interventional study | No |
|--|----|

| | |
|--|--|
| Additional information regarding sample selection. | Prospective Inclusion cut-off date: 01/12/2002 |
|--|--|

Database objective

| | |
|----------------|--|
| Main objective | General objective: to define clinical, radiological and biological criteria that allow formal diagnosis of early cases of rheumatoid arthritis among other early cases of inflammatory rheumatism. Secondary objective: To identify prognostic factors, ahead of early rheumatoid arthritis, that allow the assessment of medium and long-term progression, in order to set the best adapted therapeutic strategy at an early stage. |
|----------------|--|

| | |
|--------------------|--|
| Inclusion criteria | Adult patients with early inflammatory rheumatism, showing first clinical signs within the last year |
|--------------------|--|

Population type

| | |
|-----|--|
| Age | Adulthood (19 to 24 years) Adulthood (25 to 44 years) Adulthood (45 to 64 years) |
|-----|--|

| | |
|--------------------|-----------------|
| Population covered | Sick population |
|--------------------|-----------------|

| | |
|--------|---------------|
| Gender | Male Woman |
|--------|---------------|

| | |
|----------------|----------|
| Geography area | Regional |
|----------------|----------|

| | |
|--|------------------------------------|
| French regions covered by the database | Languedoc-Roussillon Midi-Pyrénées |
|--|------------------------------------|

| | |
|------------------------------|----------------------|
| Detail of the geography area | Midi-Pyrénées region |
|------------------------------|----------------------|

Data collection

Dates

| | |
|--|---------|
| Date of first collection (YYYY or MM/YYYY) | 06/1992 |
|--|---------|

| | |
|---|---------|
| Date of last collection (YYYY or MM/YYYY) | 12/2012 |
|---|---------|

Size of the database

| | |
|--|------------------------|
| Size of the database (number of individuals) | [500-1000[individuals |
|--|------------------------|

| | |
|--------------------------------------|-----|
| Details of the number of individuals | 823 |
|--------------------------------------|-----|

Data

| | |
|----------------------------|--|
| Database activity | Data collection completed |
| Type of data collected | Clinical data Declarative data Paraclinical data Biological data |
| Clinical data (detail) | Direct physical measures Medical registration |
| Declarative data (detail) | Paper self-questionnaire Face to face interview |
| Paraclinical data (detail) | Imaging |
| Biological data (detail) | Type of samples taken: ESR, CRP, FR, anti-keratin AC (GIFOR, GBlot, AhFibA, Anti-CCP), acAN |
| Presence of a biobank | Yes |
| Contents of biobank | DNA |
| Details of biobank content | DNA bank |
| Health parameters studied | Health event/morbidity Health event/mortality Quality of life/health perception |

Procedures

| | |
|---------------------------------------|---|
| Data collection method | Self-administered questionnaire: entry from a paper questionnaire (manual input); Interviews: entry from a paper questionnaire (manual input); Clinical examination: handwritten (manual input) Biological analysis: handwritten (manual input) |
| Participant monitoring | Yes |
| Details on monitoring of participants | Patients in the RMP cohort are no longer monitored. |
| Links to administrative sources | No |
