

# RMP - Ranguel Midi-Pyrénées

Head :Cantagrel Alain, UMR1043 ? Centre de Physiopathologie de Toulouse-Purpan  
Constantin , U 558 INSERM

Last update : 08/12/2014 | Version : 1 | ID : 60172

## General

### Identification

Detailed name Ranguel Midi-Pyrénées

Sign or acronym RMP

CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation Accord CNIL (30/08/2003)

### General Aspects

Medical area Rheumatology

Health determinants Geography

Others (details) Rheumatoid arthritis

Keywords joint inflammatory activity, structural damage, Health episodes, progression, quality of life

### Scientific investigator(s) (Contact)

Name of the director Cantagrel

Surname Alain

Address 31059 TOULOUSE

Phone + 33 (0)5 61 77 69 76

Email cantagrel.a@chu-toulouse.fr

Unit UMR1043 ? Centre de Physiopathologie de Toulouse-Purpan

Organization CHU de

Name of the director Constantin

Address	31000 TOULOUSE
Phone	+ 33 (0)5 61 77 69 76
Email	constantin.a@chu-toulouse.fr
Unit	U 558 INSERM
Organization	INSERM - Institut National de la Santé et de la Recherche

## Collaborations

### Funding

Funding status	Public
----------------	--------

Details	CENTRE DE RHUMATOLOGIE DES HÔPITAUX DE TOULOUSE
---------	---

## Governance of the database

Sponsor(s) or organisation(s) responsible	CHU de toulouse
Organisation status	Public
Sponsor(s) or organisation(s) responsible	INSERM - Institut National de la Santé et de la Recherche Médicale
Organisation status	Public

## Additional contact

## Main features

### Type of database

Type of database	Study databases
Study databases (details)	Cohort study

Database recruitment is carried out by an intermediary	A selection of health institutions and services
--	---

Database recruitment is carried out as part of an interventional study	No
--	----

Additional information regarding sample selection.	Prospective Inclusion cut-off date: 01/12/2002
--	--

## Database objective

Main objective	General objective: to define clinical, radiological and biological criteria that allow formal diagnosis of early cases of rheumatoid arthritis among other early cases of inflammatory rheumatism. Secondary objective: To identify prognostic factors, ahead of early rheumatoid arthritis, that allow the assessment of medium and long-term progression, in order to set the best adapted therapeutic strategy at an early stage.
----------------	--

Inclusion criteria	Adult patients with early inflammatory rheumatism, showing first clinical signs within the last year
--------------------	--

## Population type

Age	Adulthood (19 to 24 years) Adulthood (25 to 44 years) Adulthood (45 to 64 years)
-----	--

Population covered	Sick population
--------------------	-----------------

Gender	Male Woman
--------	---------------

Geography area	Regional
----------------	----------

French regions covered by the database	Languedoc-Roussillon Midi-Pyrénées
--	------------------------------------

Detail of the geography area	Midi-Pyrénées region
------------------------------	----------------------

## Data collection

### Dates

Date of first collection (YYYY or MM/YYYY)	06/1992
--	---------

Date of last collection (YYYY or MM/YYYY)	12/2012
---	---------

### Size of the database

Size of the database (number of individuals)	[500-1000[ individuals
--	------------------------

Details of the number of individuals	823
--------------------------------------	-----

## Data

Database activity	Data collection completed
Type of data collected	Clinical data Declarative data Paraclinical data Biological data
Clinical data (detail)	Direct physical measures Medical registration
Declarative data (detail)	Paper self-questionnaire Face to face interview
Paraclinical data (detail)	Imaging
Biological data (detail)	Type of samples taken: ESR, CRP, FR, anti-keratin AC (GIFOR, GBlot, AhFibA, Anti-CCP), acAN
Presence of a biobank	Yes
Contents of biobank	DNA
Details of biobank content	DNA bank
Health parameters studied	Health event/morbidity Health event/mortality Quality of life/health perception

## Procedures

Data collection method	Self-administered questionnaire: entry from a paper questionnaire (manual input); Interviews: entry from a paper questionnaire (manual input); Clinical examination: handwritten (manual input) Biological analysis: handwritten (manual input)
Participant monitoring	Yes
Details on monitoring of participants	Patients in the RMP cohort are no longer monitored.
Links to administrative sources	No
