Population type

Age	Adulthood (19 to 24 years) Adulthood (25 to 44 years) Adulthood (45 to 64 years) Elderly (65 to 79 years) Great age (80 years and more)
-----	---

Population covered	Sick population
--------------------	-----------------

Gender	Male Woman
--------	---------------

Geography area	National
----------------	----------

Detail of the geography area	Metropolitan France
------------------------------	---------------------

Data collection

Dates

Date of first collection (YYYY or MM/YYYY)	2009
--	------

Date of last collection (YYYY or MM/YYYY)	2009
---	------

Size of the database

Size of the database (number of individuals)	[500-1000[individuals
--	------------------------

Details of the number of individuals	965
--------------------------------------	-----

Data

Database activity	Data collection completed
-------------------	---------------------------

Type of data collected	Clinical data
------------------------	---------------

Clinical data (detail)	Direct physical measures
------------------------	--------------------------

Medical registration

Presence of a biobank No

Health parameters studied Health care consumption and services

Care consumption (detail) Medical/paramedical consultation

Procedures

Data collection method Electronic CRF

Classifications used Who-Drug

Participant monitoring No

Links to administrative sources No
