TROPHEE - Benign prostatic hyperplasia: management and medical needs not covered in general practice in France

Head: Leclerc-Zwirn Christel, Laboratoire GSK

Funding status

Last update : 01/01/2020 Version : 1 ID :	162
General	
Identification	
Detailed name	Benign prostatic hyperplasia: management and medical needs not covered in general practice in France
Sign or acronym	TROPHEE
CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation	CNIL: 909 315
General Aspects	
Medical area	General practice Urology, andrology and nephrology
Health determinants	latrogenic
Keywords	adherence, observational, quality of life, satisfaction, sexuality
Scientific investigator(s) (Contact)	
Name of the director	Leclerc-Zwirn
Surname	Christel
Phone	+33 (0)1 39 17 86 96
Email	christel.c.leclerc-zwirn@gsk.com
Unit	Laboratoire GSK
Collaborations	
Funding	

Private

Details	Laboratoire GSK
Governance of the database	
Sponsor(s) or organisation(s) responsible	LABORATOIRE GSK
Organisation status	Private
Additional contact	
Main features	
Type of database	
Type of database	Study databases
Study databases (details)	Not-repeated cross-sectional studies (except case control studies)
Database recruitment is carried out by an intermediary	A selection of health care professionals
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	The study will only be performed with general practitioners. This choice is justified by the fact that general practitioners represent the source of most prescriptions in BPH. The study will be proposed to approximately 800 general practitioners drawn randomly from the 1,200 GPs in the Thalès observatory. A participation of 180 doctors is expected. During the three month including periode, the participating doctors will systematically and consecutively include each patient who meets all of the eligibility criteria and will then give the patient a self-completed questionnaire.
Database objective	
Main objective	To describe the general practitioner long term management plan for patients with symptoms of BPH in France
Inclusion criteria	? Patients over 50 years old? Patients with a diagnosis of BPH for at least 1 year? Patients currently treated with at least one of the treatments for symptoms of BPH
Population type	

Elderly (od (45 to 64 years) (65 to 79 years) ge (80 years and more)
Population covered Sick population	oulation
Gender Male	
Geography area Nationa	I
Detail of the geography area France	
Data collection	
Dates	
Date of first collection (YYYY or 2009 MM/YYYY)	
Date of last collection (YYYY or 2010 MM/YYYY)	
Size of the database	
Size of the database (number of [1000-1 individuals)	.0 000[individuals
Details of the number of 1098 individuals	
Data	
Database activity Data co	llection completed
Type of data collected Clinical of Declaration	data tive data
	hysical measures registration
Declarative data (detail) Paper se	elf-questionnaire
Presence of a biobank No	
Health parameters studied Quality Others	of life/health perception
Other (detail) Adherer	nce (MMAS), Satisfaction (TSQM)

Data collection method	E-CRF and self administrated questionnaire
Participant monitoring	No
Links to administrative sources	No
Promotion and access
