Last update : 08/11/2014 | Version : 1 | ID : 60192

General	
Identification	
Detailed name	Individual and Environmental Risk Factors of Unplanned Admissions for Elderly People
Sign or acronym	RIEHO
CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation	Accord CNIL : 06/04/2009
General Aspects	
Medical area	Geriatrics
Health determinants	Geography Pollution
Keywords	Health, environment, hospitalisation
Scientific investigator(s) (Contact)	
Name of the director	Aegerter
Surname	Philippe
Address	78280 GUYANCOURT
Phone	+ 33 (0)1 49 09 58 86
Email	philippe.aegerter@apr.aphp.fr
Unit	UPRES EA 2506 SANTÉ, ENVIRONNEMENT, VIEILLISSEMENT PR ANKRI HÔPITAL STE-PÉRINE

Database recruitment is carried out as part of an interventional study

No

Additional information regarding sample selection.

Inclusion method: Prospective Inclusion cut-off date: 01/12/2010

Database objective

Main objective

General objective: to identify individual and environmental risk factors, notably air pollution, responsible for unplanned hospital admissions for elderly people. Secondary objectives: - to determine growth curves and other morphological parameters of reference adapted to Kabuki syndrome. - to identify clinical, biological and radiological symptoms of Kabuki syndrome and to determine their true frequency. - to identify complications of the disease to improve the care of patients with Kabuki syndrome. - to perform MRI Voxel based morphometry in a small cohort of patients to identify abnormal brain region distribution in comparison with case-controls.

Inclusion criteria

Patients screened locally following Korsakoff syndrome diagnosis by network clinicians according to clinical biological and radiological criteria. Patients whose parents have both agreed to participate in the genetic study. Signed consent from the patient or from those with parental authority if the patient is under age.

Population type

Age

Great age (80 years and more)

Population covered

Sick population

Gender

Male
Woman

Geography area

Regional

French regions covered by the database

Alsace Champagne-Ardenne Lorraine
Île-de-France

Detail of the geography area

Multicentric cohort throughout France (3 centres)
Geographical area covered: PARIS, BOULOGNE,
MONTREUIL, REIMS
