

# - Prevalence and Time Trends of Disabilities in School-Age Children

Head :Grandjean H el ene, CJF 94-04

Last update : 09/05/2017 | Version : 2 | ID : 6378

## General

### Identification

Detailed name Prevalence and Time Trends of Disabilities in School-Age Children

CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation Accord CNIL

### General Aspects

Medical area Neurology

Health determinants Geography  
Social and psychosocial factors

Keywords Prevalence, progression, disability, childhood

### Scientific investigator(s) (Contact)

Name of the director Grandjean

Surname H el ene

Address 31052 Toulouse

Unit CJF 94-04

Organization Institut National de la Sant e et de la Recherche

### Collaborations

### Funding

Funding status Public

Details - Institut National de la Sant e et de la Recherche M edicale- Minist ere de la sant e- Caisse Nationale d'Assurance Maladie

## Governance of the database

Sponsor(s) or organisation(s) responsible Institut National de la Santé et de la Recherche Médicale

Organisation status Public

## Additional contact

## Main features

### Type of database

Type of database Study databases

Study databases (details) Longitudinal study (except cohorts)

Database recruitment is carried out by an intermediary A population file

Database recruitment is carried out as part of an interventional study No

Additional information regarding sample selection. Subjects of the study must have Commission Départementale de l'Education authorisation or be registered with the Centre d'Action Médico-social Précoce.

## Database objective

Main objective To determine time trends and prevalence of disabilities in school-age children.

## Population type

Age Childhood (6 to 13 years)  
Adolescence (13 to 18 years)

Population covered General population

Gender Male  
Woman

Geography area Regional

French regions covered by the database Auvergne Rhône-Alpes  
Bourgogne Franche-Comté

Detail of the geography area	Midi-Pyrénées: Haute-Garonne, Isère and Saône-et-Loire départements
------------------------------	---

## Data collection

### Dates

Date of first collection (YYYY or MM/YYYY)	1992
--	------

Date of last collection (YYYY or MM/YYYY)	1993
---	------

### Size of the database

Size of the database (number of individuals)	[1000-10 000[ individuals
--	---------------------------

Details of the number of individuals	6100
--------------------------------------	------

### Data

Database activity	Data collection completed
-------------------	---------------------------

Type of data collected	Administrative data
------------------------	---------------------

Administrative data (detail)	Commission Départementale de l'Education Spéciale
------------------------------	---

Presence of a biobank	No
-----------------------	----

Health parameters studied	Health event/morbidity
---------------------------	------------------------

### Procedures

Data collection method	Data collected is compared between 3 cohorts of children born between 1976-1978, 1979-1981 and 1982-1984.
------------------------	---

Participant monitoring	Yes
------------------------	-----

Links to administrative sources	No
---------------------------------	----
