

# - Health and environment Barometer

Head :Menard Colette

Last update : 09/05/2017 | Version : 1 | ID : 1133

## General

### Identification

Detailed name Health and environment Barometer

### General Aspects

Medical area Psychology and psychiatry  
Study of allergies

Pathology (details) Environmental risks: Pollution of soil, Pollution of outdoor air, Pollution of indoor air, Carbon monoxide, Radon, Household, do-it-yourself and gardening products, cosmetics Bathing waters, Legionnaires' disease, Noise, Mobile telephone

Health determinants Pollution

Keywords - General perceptions on the environment, environmental risks - Preventive behaviors and attitudes

### Scientific investigator(s) (Contact)

Name of the director Menard

Surname Colette

Address 42, boulevard de la libération - 93203 - Saint-Denis cedex

Phone + 33(0)1 49 33 23 89

Email colette.menard@inpes.sante.fr

Organization INPES - Institut National de Prévention et d'Éducation pour la

### Collaborations

### Funding

Funding status Public

Details	Ministère de la santé, de la Jeunesse et des Sports Caisse nationale de l'assurance maladie des travailleurs salariés Au niveau régional, soutien financier de la DASS et des collectivités territoriales.
<b>Governance of the database</b>	
Sponsor(s) or organisation(s) responsible	Institut National de Prévention et d'Education pour la Santé (INPES)
Organisation status	Public
<b>Additional contact</b>	
<b>Main features</b>	
<b>Type of database</b>	
Type of database	Study databases
Study databases (details)	Repeated cross-sectional studies (except case control studies)
Database recruitment is carried out by an intermediary	A population file
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	Two-stage sampling (household then individual) Random selection from the France Télécom directory. An announcement letter is sent before the call (when the address is available, otherwise afterwards) The individual is selected via the birthday method Individuals registered on the red list participated in the survey
<b>Database objective</b>	
Main objective	Evaluate the representations, attitudes and behaviors of the population residing in France faced with environmental risks
Inclusion criteria	Querying people in households: -equipped with a landline telephone (white, orange or red list)
<b>Population type</b>	
Age	Adulthood (19 to 24 years)

Adulthood (25 to 44 years)  
Elderly (65 to 79 years)

Population covered	General population
--------------------	--------------------

Gender	Male Woman
--------	---------------

Geography area	National
----------------	----------

Detail of the geography area	Metropolitan France
------------------------------	---------------------

## Data collection

### Dates

Date of first collection (YYYY or MM/YYYY)	2007
--	------

Date of last collection (YYYY or MM/YYYY)	2007
---	------

### Size of the database

Size of the database (number of individuals)	[1000-10 000[ individuals
--	---------------------------

Details of the number of individuals	6007 individus âgés de 18 à 75 ans plus 7 échantillons régionaux. 6007 individuals from 18 to 75 years old plus 7 régionals samples
--------------------------------------	---

### Data

Database activity	Data collection completed
-------------------	---------------------------

Type of data collected	Declarative data
------------------------	------------------

Declarative data (detail)	Phone interview
---------------------------	-----------------

Presence of a biobank	No
-----------------------	----

Health parameters studied	Others
---------------------------	--------

Other (detail)	environmental risks
----------------	---------------------

### Procedures

Data collection method	by phone
------------------------	----------

Participant monitoring	No
------------------------	----

Links to administrative sources	No
---------------------------------	----

## Promotion and access

### Promotion

### Access

Terms of data access (charter for data provision, format of data, availability delay)

- INPES publishes reports that present the results of the surveys,
- Publication of summary articles and articles published in scientific reviews
- Full online publication of the work, summaries and chapters
- Distribution of the results with the condition of mentioning the sources
- access to the database is possible subject to an agreement once the work is published

Access to aggregated data

Access on specific project only

Access to individual data

Access on specific project only
