Adulthood (25 to 44 years)
Elderly (65 to 79 years)

Population covered General population

Gender Male
 Woman

Geography area National

Detail of the geography area Metropolitan France

Data collection

Dates

Date of first collection (YYYY or
MM/YYYY) 2007

Date of last collection (YYYY or
MM/YYYY) 2007

Size of the database

Size of the database (number of
individuals) [1000-10 000[individuals

Details of the number of
individuals 6007 individus âgés de 18 à 75 ans plus 7
 échantillons régionaux. 6007 individuals from 18 to
 75 years old plus 7 régionals samples

Data

Database activity Data collection completed

Type of data collected Declarative data

Declarative data (detail) Phone interview

Presence of a biobank No

Health parameters studied Others

Other (detail) environmental risks

Procedures

Data collection method by phone

Participant monitoring No

Links to administrative sources No

Promotion and access

Promotion

Access

Terms of data access (charter for data provision, format of data, availability delay)

- INPES publishes reports that present the results of the surveys,
- Publication of summary articles and articles published in scientific reviews
- Full online publication of the work, summaries and chapters
- Distribution of the results with the condition of mentioning the sources
- access to the database is possible subject to an agreement once the work is published

Access to aggregated data

Access on specific project only

Access to individual data

Access on specific project only
