

# EUROCARE - European cross-sectionnal study on patients with cancer : survival, prevalence and care models

Head :De Angelis Roberta

Last update : 03/05/2015 | Version : 1 | ID : 23414

## General

### Identification

Detailed name European cross-sectionnal study on patients with cancer : survival, prevalence and care models

Sign or acronym EUROCARE

### General Aspects

Medical area Cancer research

Health determinants Iatrogenic

Keywords care models, Europe, cancer, survival, prevalence

### Scientific investigator(s) (Contact)

Name of the director De Angelis

Surname Roberta

Address Viale Regina Elena 299 00161 - Roma (I)

Phone +39 06 4990 4289

Email roberta.deangelis@iss.it

Organization Institut national de la Santé -

### Collaborations

### Funding

Funding status Mixed

Details Italian Ministry of Health  
Compagnia di San Paolo di Torino  
CARIPLO foundation

### Governance of the database

Sponsor(s) or organisation(s) responsible Institut national de la Santé - Italie

Organisation status	Public
Sponsor(s) or organisation(s) responsible	Centre national d'épidémiologie, de surveillance de la santé et de la promotion - Italie
Organisation status	Public
<b>Additional contact</b>	
<b>Main features</b>	
<b>Type of database</b>	
Type of database	Study databases
Study databases (details)	Repeated cross-sectional studies (except case control studies)
Database recruitment is carried out by an intermediary	An administrative base or a register
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	From 117 cancer registries in 29 European countries.
<b>Database objective</b>	
Main objective	To provide an updated description of cancer survival time trends and differences across European countries, to measure cancer prevalence, and to study patterns of care of cancer patients.
Inclusion criteria	Patients with cancer living in Europe.
<b>Population type</b>	
Age	Newborns (birth to 28 days) Infant (28 days to 2 years) Early childhood (2 to 5 years) Childhood (6 to 13 years) Adolescence (13 to 18 years) Adulthood (19 to 24 years) Adulthood (25 to 44 years) Adulthood (45 to 64 years) Elderly (65 to 79 years) Great age (80 years and more)
Population covered	Sick population

Gender	Male Woman
Geography area	International
Detail of the geography area	Europe :Denmark, Finland, Iceland, Norway, Sweden, England, Ireland, Northern Ireland, Scotland, Wales, Austria, Belgium, France, Germany, Netherlands, Switzerland, Croatia, Italy, Malta, Portugal, Slovenia, Spain, Bulgaria, Czech Republic, Estonia, Latvia, Lithuania, Poland, Slovakia.

## Data collection

### Dates

Date of first collection (YYYY or MM/YYYY) 1989

### Size of the database

Size of the database (number of individuals) Greater than 20 000 individuals

Details of the number of individuals 22 000 000

### Data

Database activity Current data collection

Type of data collected Clinical data  
Administrative data

Clinical data (detail) Direct physical measures

Administrative data (detail) Date of birth, country of residence

Presence of a biobank No

Health parameters studied Health event/morbidity  
Health event/mortality  
Health care consumption and services

Care consumption (detail) Hospitalization  
Medical/paramedical consultation  
Medicines consumption

### Procedures

Participant monitoring No

Links to administrative sources      No

## Promotion and access

### Promotion
