

NHWS - National Health and Wellness Survey in France

Head :Bonnelye Geneviève

Last update : 01/06/2021 | Version : 2 | ID : 8472

General	
Identification	
Detailed name	National Health and Wellness Survey in France
Sign or acronym	NHWS
CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation	International database submitted to IRB in the USA
General Aspects	
Medical area	Cancer research Cardiology Dermatology, venereology Disability/handicap Endocrinology and metabolism Gastroenterology et hepatology General practice Gynecology/ obstetrics Infectious diseases Internal medicine Neurology Ophthalmology Otolaryngology or ENT Physical medicine and rehabilitation Pneumology Psychology and psychiatry Rheumatology Study of allergies Urology, andrology and nephrology
Study in connection with Covid-19	No
Health determinants	Geography Iatrogenic Lifestyle and behavior Medicine Occupation
Keywords	impact of illness on work, choice of treatment, undiagnosed sufferers, treatment adherence,

resources, healthcare approach, quality of life.
satisfaction, Condition, diagnosis, symptoms,
attitudes

Scientific investigator(s) (Contact)

Name of the director	Bonnelye
Surname	Geneviève
Address	3 avenue Pierre Masse 75014 Paris
Phone	+33 (0)1 40 92 66 66
Email	genevieve.bonnelye@kantarc.com
Organization	Kantar Health

Collaborations

Funding

Funding status	Private

Main features

Type of database

Type of database	Study databases
------------------	-----------------

Study databases (details)	Repeated cross-sectional studies (except case control studies)
---------------------------	--

Database recruitment is carried out by an intermediary	A population file
--	-------------------

Database recruitment is carried out as part of an interventional study	No
--	----

Additional information regarding quotas
sample selection.

Database objective

Main objective Health and impact from a humanistic and economic standpoint (primary data/200 identified pathologies)
Objectives: scientific publications and provision of economic models

Inclusion criteria France: national sample of 15,000 French individuals aged 18 and over and representative in terms of gender, age, region, metropolitan area and socio-professional category.

Population type

Age Adulthood (19 to 24 years)
Adulthood (25 to 44 years)
Adulthood (45 to 64 years)
Elderly (65 to 79 years)

Population covered General population

Pathology

Gender Male
Woman

Geography area International

Detail of the geography area Brazil, China, Germany, Italy, France, Japan, Russia, Spain, South Korea, Taiwan, United Kingdom and United States

Data collection

Dates

Date of first collection (YYYY or MM/YYYY) 2000

Date of last collection (YYYY or MM/YYYY) 2020

Size of the database

Size of the database (number of individuals) Greater than 20 000 individuals

Details of the number of individuals 15,000 individuals in France, 250,000 individuals across all countries

Data	
Database activity	Current data collection
Type of data collected	Declarative data Utility / preference data
Declarative data (detail)	Internet self-questionnaire
Utility / preference data (detail)	EQ-5D
Presence of a biobank	No
Health parameters studied	Health event/morbidity Health care consumption and services Quality of life/health perception Others
Care consumption (detail)	Hospitalization Medical/paramedical consultation Medicines consumption
Other (detail)	Validates scales : EQ-5D, SF36/SF12, WPAI and 30+ Disease-Specific PROs
Procedures	
Data collection method	online/recruitment by telephone for populations aged 65 and over
Quality procedure(s) used	ISO 20252
Participant monitoring	No
Followed pathology	
Links to administrative sources	No
Promotion and access	
Promotion	
Access	
Terms of data access (charter for data provision, format of data, availability delay)	Contact the scientist in charge.
Access to aggregated data	Access on specific project only
Access to individual data	Access on specific project only
