Adulthood (19 to 24 years)
Adulthood (25 to 44 years)
Adulthood (45 to 64 years)
Elderly (65 to 79 years)

Population covered

General population

Gender

Male
Woman

Geography area

National

Detail of the geography area

France

Data collection

Dates

Date of first collection (YYYY or MM/YYYY) 1982

Date of last collection (YYYY or MM/YYYY) 2011

Size of the database

Size of the database (number of individuals) [1000-10 000[individuals

Details of the number of individuals 6,184

Data

Database activity Data collection completed

Type of data collected Declarative data

Declarative data (detail) Paper self-questionnaire

Presence of a biobank No

Health parameters studied Health event/morbidity
Quality of life/health perception

Procedures

Data collection method Self-administered online and through print media

Participant monitoring No
