

PATHROS : Paris Thrombosis Study - Case-Control Study on Vascular Medicine Patients in Paris University Hospitals

Head :Emmerich Joseph, Department of Medicines used in Cardiology, Endocrinology, Gynaecology and Urology

Last update : 07/05/2016 | Version : 1 | ID : 6997

General

Identification

Detailed name Case-Control Study on Vascular Medicine Patients in Paris University Hospitals

Sign or acronym PATHROS : Paris Thrombosis Study

CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation

CNIL

General Aspects

Medical area Cardiology
Hematology

Pathology (details) Venous thromboembolism

Health determinants Genetic
Medicine

Keywords genetic mutation, angiogenesis, coagulation, marker

Scientific investigator(s) (Contact)

Name of the director Emmerich

Surname Joseph

Address 143/147 bld Anatole France F-93285 Saint-Denis cedex

Phone +(33) (0)1 55 87 35 10

Email Joseph.EMMERICH@ansm.sante.fr

Unit Department of Medicines used in Cardiology, Endocrinology, Gynaecology and Urology

Organization French National Agency for the Safety of Medicines and Health Products

Collaborations

Funding

Funding status Mixed

Details National Institute of Health and Medical Research - Medical Research Foundation

Governance of the database

Sponsor(s) or organisation(s) responsible AP-HP

Organisation status Public

Sponsor(s) or organisation(s) responsible National Institute of Health and Medical Research

Additional contact

Main features

Type of database

Type of database Study databases

Study databases (details) Case control study

Database recruitment is carried out by an intermediary A selection of health institutions and services

Database recruitment is carried out as part of an interventional study No

Additional information regarding sample selection. The sample was recruited from vascular medicine departments across university hospitals in Paris.

Database objective

Main objective To identify genetic risk factors for venous thromboembolism.

Inclusion criteria
? men and women
? adult
? younger than 61 years old

Population type

Age
Adulthood (19 to 24 years)
Adulthood (25 to 44 years)
Adulthood (45 to 64 years)

Population covered
General population

Gender
Male
Woman

Geography area
Local

French regions covered by the database
Île-de-France

Detail of the geography area
Paris and surrounding region

Data collection

Dates

Date of first collection (YYYY or MM/YYYY)
2000

Size of the database

Size of the database (number of individuals)
[500-1000[individuals

Details of the number of individuals
699 ? 320 cases ? 379 controls

Data

Database activity
Data collection completed

Type of data collected
Clinical data
Biological data

Clinical data (detail)
Medical registration

Details of collected clinical data
Diagnosis for varicose veins

Biological data (detail)
Blood (plasma) ? DNA

Presence of a biobank
Yes

Contents of biobank
DNA

Details of biobank content
Stored at 4°C

Health parameters studied	Health event/morbidity
Procedures	
Participant monitoring	No
