## Population type

Age Adolescence (13 to 18 years)

Population covered General population

## Pathology

Gender Male  
Woman

Geography area International

## Data collection

### Dates

### Size of the database

Size of the database (number of individuals) [1000-10 000[ individuals

## Data

Database activity Current data collection

Type of data collected Declarative data

Declarative data (detail) Paper self-questionnaire

Presence of a biobank No

Health parameters studied Others

## Procedures

Participant monitoring No

### Followed pathology

Links to administrative sources No
