

# AlimAdos - Cross-sectional study of dietary behaviours in adolescents

Head :Pardo Véronique

Last update : 01/01/2019 | Version : 1 | ID : 22866

## General

### Identification

Detailed name Cross-sectional study of dietary behaviours in adolescents

Sign or acronym AlimAdos

### General Aspects

Medical area Endocrinology and metabolism  
General practice

Health determinants Lifestyle and behavior  
Nutrition

Keywords dietary behaviours, adolescents

### Scientific investigator(s) (Contact)

Name of the director Pardo

Surname Véronique

Address 42 rue de Châteaudun  
75314 Paris cedex 09

Phone +33 (0) 1 49 70 71 51

Email v.pardo@cniel.com

Organization Observatoire Cniel des Habitudes

### Collaborations

### Funding

Funding status Private

Details French Dairy Interbranch Organization and French National Research Agency

### Governance of the database

Sponsor(s) or organisation(s) responsible	Observatoire Cniel des Habitudes Alimentaires
Organisation status	Public
Sponsor(s) or organisation(s) responsible	Centre National de la Recherche Scientifique
Organisation status	Public
Additional contact	
Main features	
Type of database	
Type of database	Study databases
Study databases (details)	Not-repeated cross-sectional studies (except case control studies)
Database recruitment is carried out as part of an interventional study	No
Database objective	
Main objective	To understand the dietary habits of adolescents considering cultural differences and population mixing at work today in France.
Inclusion criteria	Be 12 to 19 years of age and live in the Alsace or Provence-Alpes-Côtes d'Azur region.
Population type	
Age	Adolescence (13 to 18 years)
Population covered	General population
Pathology	
Gender	Male Woman
Geography area	Departmental
French regions covered by the database	Alsace Champagne-Ardenne Lorraine Provence - Alpes - Côte d'Azur
Detail of the geography area	Alsace and Provence-Alpes-Côtes d'Azur.

## Data collection

### Dates

Date of first collection (YYYY or MM/YYYY) 2007

Date of last collection (YYYY or MM/YYYY) 2009

### Size of the database

Size of the database (number of individuals) [1000-10 000] individuals

Details of the number of individuals 1500

### Data

Database activity Data collection completed

Type of data collected Declarative data

Declarative data (detail) Face to face interview

Details of collected declarative data Qualitative survey. Giving food diaries to adolescents and parents. Collection of life stories focused on the relationship to food and collection of objective data.

Presence of a biobank No

Health parameters studied Health event/morbidity

### Procedures

Participant monitoring No

Followed pathology

Links to administrative sources No
