Unit Division Conditions de Vie des Ménages

Organization Insee

Name of the director Duée

Surname Michel

Email	michel.duee@insee.fr
Unit	Household conditions
Organization	Insee
<b>Collaborations</b>	
<b>Funding</b>	
Funding status	Public
Details	DIRMI, CNAF, DREES
<b>Governance of the database</b>	
Sponsor(s) or organisation(s) responsible	Insee
Organisation status	Public
<b>Additional contact</b>	
<b>Main features</b>	
<b>Type of database</b>	
Type of database	Study databases
Study databases (details)	Repeated cross-sectional studies (except case control studies)
Database recruitment is carried out by an intermediary	An administrative base or a register
Base or register (detail)	Recipients of the minimum integration income (RMI) at a mainland France CAF on 31 December 1996
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	Sample of 10,000 individuals, representing 882,047 recipients of the minimum integration income (RMI) enrolled in mainland France CAFs on 31 December 1996. The first questioning, streamlined, allowed for the identification of 1,850 individuals who had stopped receiving the minimum integration income (RMI) between December 1996 and September 1997. This first set was completed by a sample of 2,350 recipients, selected from those still receiving government benefits in September. The 4,200

individuals were questioned for a first time in January 1998 and a second time in September 1998.

## Database objective

**Main objective** The purpose of this methodological study is to specify the family configuration actually experienced by recipients of the minimum integration income (RMI).

**Inclusion criteria** All of the individuals receiving the minimum integration income (RMI) from the metropolitan France on 31 December 1996, except for old farmers enrolled in the Mutualité sociale agricole

## Population type

**Age** Adulthood (19 to 24 years)  
Adulthood (25 to 44 years)  
Adulthood (45 to 64 years)  
Elderly (65 to 79 years)  
Great age (80 years and more)

**Population covered** General population

**Pathology**

**Gender** Male  
Woman

**Geography area** National

**Detail of the geography area** France

## Data collection

### Dates

**Date of first collection (YYYY or MM/YYYY)** 1996

**Date of last collection (YYYY or MM/YYYY)** 1998

## Size of the database

**Size of the database (number of individuals)** [1000-10 000] individuals

**Details of the number of individuals** 7953

## Data

Database activity	Data collection completed
Type of data collected	Declarative data
Details of collected declarative data	Lodging, occupational integration, living conditions, family configuration
Presence of a biobank	No
Health parameters studied	Quality of life/health perception

## Procedures

Data collection method	Computer-assisted personal interviewing (CAPI)
Participant monitoring	No
Followed pathology	
Links to administrative sources	Yes
Linked administrative sources (detail)	Administrative data from the CAF

### Access

Terms of data access (charter for data provision, format of data, availability delay)	Available formats: The data are available in SAS, SPSS and STATA formats. Confidentiality statement: To obtain the data, you must agree not to transfer the data, in any way, to a third party. Restrictions for use: The data may only be used for research purposes. Any other use, commercial or otherwise, is strictly prohibited. Reference requirement: The source of the data received must appear in the publications supported by these data (including footnotes, bibliographic references, table legends). Submission requirement: In order to provide the producing organisations with essential information regarding the use of the archived resources, the data users are required to send the ADISP-CMH, if possible in electronic format, an abstract or a reprint of their publication(s), indicating which studies were used in an accompanying letter. Conditions of access: Different access procedures
