## Population type

Age  
Elderly (65 to 79 years)  
Great age (80 years and more)

Population covered  
General population

## Pathology

Gender  
Male  
Woman

Geography area  
Local

French regions covered by the database  
Auvergne Rhône-Alpes

Detail of the geography area  
Clermont-Ferrand

## Data collection

### Dates

### Size of the database

Size of the database (number of individuals)  
< 500 individuals

Details of the number of individuals  
195

## Data

Database activity  
Data collection completed

Type of data collected  
Declarative data

Declarative data (detail)  
Paper self-questionnaire

Details of collected declarative data  
LEIPAD and SF36 questionnaire

Presence of a biobank  
No

Health parameters studied  
Health event/morbidity  
Quality of life/health perception

Quality of life/perceived health (detail)  
LEIPAD, SF36

## Procedures

Participant monitoring No

Followed pathology
