

# EPILEPSIE - Cross-sectional study of epilepsy among homeless people

Head :Arnaud Amandine

Last update : 10/20/2017 | Version : 1 | ID : 73172

## General

### Identification

Detailed name Cross-sectional study of epilepsy among homeless people

Sign or acronym EPILEPSIE

CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation

CNIL

### General Aspects

Medical area Neurology

Pathology (details) Epilepsy

Health determinants Addictions  
Healthcare system and access to health care services  
Lifestyle and behavior  
Social and psychosocial factors

Keywords Epilepsy, alcohol, homeless, management, prevalence

### Scientific investigator(s) (Contact)

Name of the director Arnaud

Surname Amandine

Email a.arnaud@samusocial-75.fr

Organization Samu Social

### Collaborations

Participation in projects, networks and consortia Yes

Details	Ligue Française Contre l'Epilepsie, Fondation Française pour la Recherche sur l'Epilepsie
<b>Funding</b>	
Funding status	Private
Details	Sanofi-Aventis
<b>Governance of the database</b>	
Sponsor(s) or organisation(s) responsible	Samu Social
Organisation status	Private
<b>Additional contact</b>	
<b>Main features</b>	
<b>Type of database</b>	
Type of database	Study databases
Study databases (details)	Not-repeated cross-sectional studies (except case control studies)
Database recruitment is carried out by an intermediary	A selection of health institutions and services
Database recruitment is carried out as part of an interventional study	No
<b>Database objective</b>	
Main objective	<p>Estimate the prevalence of epilepsy in people frequenting SSP reception and accommodation facilities</p> <p>Describe the types and characteristics of epilepsy</p> <p>Assess the frequency of care and access to treatments</p> <p>Assess the impact of the situation of exclusion on the frequency of seizures</p>
Inclusion criteria	All people going for medical consultations at the 3 CHUS and day centres (ESI) and present in the 3 CHUSI between 10 March and 18 April 2003
<b>Population type</b>	
Age	Adulthood (19 to 24 years)

Adulthood (25 to 44 years)  
Adulthood (45 to 64 years)  
Elderly (65 to 79 years)  
Great age (80 years and more)

Population covered

General population

Pathology

Gender

Male  
Woman

Geography area

Local

French regions covered by the database

Île-de-France

Detail of the geography area

Paris

## Data collection

### Dates

Date of first collection (YYYY or MM/YYYY)

2003

Date of last collection (YYYY or MM/YYYY)

2003

### Size of the database

Size of the database (number of individuals)

[500-1000[ individuals

Details of the number of individuals

592

### Data

Database activity

Data collection completed

Type of data collected

Declarative data

Details of collected declarative data

Short questionnaire: sex, age, region of birth, length of time spent homeless, alcohol consumption, reason for consultation, history of epileptic seizures. Long questionnaire for people who reported an epileptic seizure: medical, surgical and family history of epilepsy, clinical description of seizures, treatment, factors promoting seizures

Presence of a biobank

No

Health parameters studied

Health event/morbidity

## Procedures

Data collection method

By trained investigators

Participant monitoring

No

Followed pathology

Links to administrative sources

No
