Age	Adulthood (19 to 24 years) Adulthood (25 to 44 years) Adulthood (45 to 64 years)
Population covered	General population

Pathology

Gender	Male Woman
Geography area	National
Data collection	
Dates	
Date of first collection (YYYY or MM/YYYY)	2007
Date of last collection (YYYY or MM/YYYY)	EN COURS
Size of the database	
Size of the database (number of individuals)	Greater than 20 000 individuals
Details of the number of individuals	>175000
Data	
Database activity	Current data collection
Type of data collected	Declarative data Administrative data
Declarative data (detail)	Paper self-questionnaire Internet self-questionnaire Face to face interview
Details of collected declarative data	occupational hazards and health
Administrative data (detail)	age, activity sector (NAF), Socioprofessional category (PCS ESE)
Presence of a biobank	No
Health parameters studied	Quality of life/health perception
Procedures	
Data collection method	voluntary
Classifications used	NAF, PCS ESE

Participant monitoring	No
Followed pathology	
Links to administrative sources	No
Promotion and access	
Promotion	
Link to the document	http://evrest.istnf.fr/page-32-0-0.html
Access	
Presence of document that lists variables and coding procedures	Yes
Terms of data access (charter for data provision, format of data, availability delay)	See https://evrest.istnf.fr/page-14-0-0.html#menu "Conditions de mise à disposition des données"
Access to aggregated data	Free access
Access to individual data	Free access
