

- Cross-sectional study on the future of individuals who have stopped receiving the minimum integration income (RMI)

Responsable(s) :Accardo Jérôme, Division Conditions de Vie des Ménages
Duée Michel, Household conditions

Date de modification : 20/10/2017 | Version : 1 | ID : 73085

Général

Identification

Nom détaillé	Cross-sectional study on the future of individuals who have stopped receiving the minimum integration income (RMI)
Numéro d'enregistrement (ID-RCB ou EUDRACT, CNIL, CPP, etc.)	CNIL

Thématiques générales

Domaine médical	General practice
Déterminants de santé	Lifestyle and behavior Occupation Social and psychosocial factors
Mots-clés	Minimum integration income (RMI), government benefits, household, housing, living conditions

Responsable(s) scientifique(s)

Nom du responsable	Accardo
Prénom	Jérôme
Téléphone	+33 (0)1 40 56 80 58
Email	jerome.accardo@insee.fr
Laboratoire	Division Conditions de Vie des Ménages
Organisme	Insee
Nom du responsable	Duée
Prénom	Michel
Email	michel.duee@insee.fr
Laboratoire	Household conditions

Organisme	Insee
Collaborations	
Financements	
Financements	Public
Précisions	DIRMI, CNAF, DREES
Gouvernance de la base de données	
Organisation(s) responsable(s) ou promoteur	Insee
Statut de l'organisation	Secteur Public
Contact(s) supplémentaire(s)	
Caractéristiques	
Type de base de données	
Type de base de données	Study databases
Base de données issues d'enquêtes, précisions	Repeated cross-sectional studies (except case control studies)
Origine du recrutement des participants	An administrative base or a register
Base ou registre, précisions	Recipients of the minimum integration income (RMI) at a mainland France CAF on 31 December 1996
Le recrutement dans la base de données s'effectue dans le cadre d'une étude interventionnelle	No
Informations complémentaires concernant la constitution de l'échantillon	Sample of 10,000 individuals, representing 882,047 recipients of the minimum integration income (RMI) enrolled in mainland France CAFs on 31 December 1996. The first questioning, streamlined, allowed for the identification of 1,850 individuals who had stopped receiving the minimum integration income (RMI) between December 1996 and September 1997. This first set was completed by a sample of 2,350 recipients, selected from those still receiving government benefits in September. The 4,200 individuals were questioned for a first time in January 1998 and a second time in September

1998.

Objectif de la base de données

Objectif principal The purpose of this methodological study is to specify the family configuration actually experienced by recipients of the minimum integration income (RMI).

Critères d'inclusion All of the individuals receiving the minimum integration income (RMI) from the metropolitan France on 31 December 1996, except for old farmers enrolled in the Mutualité sociale agricole

Type de population

Age Adulthood (19 to 24 years)
Adulthood (25 to 44 years)
Adulthood (45 to 64 years)
Elderly (65 to 79 years)
Great age (80 years and more)

Population concernée General population

Pathologie

Sexe Male
Woman

Champ géographique National

Détail du champ géographique France

Collecte

Dates

Année du premier recueil 1996

Année du dernier recueil 1998

Taille de la base de données

Taille de la base de données (en nombre d'individus) [1000-10 000[individuals

Détail du nombre d'individus 7953

Données

Activité de la base Data collection completed

Type de données recueillies	Declarative data
Détail des données déclaratives recueillies	Lodging, occupational integration, living conditions, family configuration

Existence d'une biothèque No

Paramètres de santé étudiés Quality of life/health perception

Modalités

Mode de recueil des données Computer-assisted personal interviewing (CAPI)

Suivi des participants No

Pathologie suivies

Appariement avec des sources administratives Yes

Sources administratives appariées, précisions Administrative data from the CAF

Accès

Charte d'accès aux données (convention de mise à disposition, format de données et délais de mise à disposition)

Available formats: The data are available in SAS, SPSS and STATA formats. Confidentiality statement: To obtain the data, you must agree not to transfer the data, in any way, to a third party. Restrictions for use: The data may only be used for research purposes. Any other use, commercial or otherwise, is strictly prohibited. Reference requirement: The source of the data received must appear in the publications supported by these data (including footnotes, bibliographic references, table legends). Submission requirement: In order to provide the producing organisations with essential information regarding the use of the archived resources, the data users are required to send the ADISP-CMH, if possible in electronic format, an abstract or a reprint of their publication(s), indicating which studies were used in an accompanying letter. Conditions of access: Different access procedures according to the requesting party's institutional affiliation and status. In all cases, the approval of the request at the end of instruction leads to the signature of an individual agreement. Liability

disclaimer: The producer and sharer of the data are not responsible for interpretations or deductions made using the data. Contact: ADISP-CMH = diffusion.adisp@ens.fr
