

# - Cross-sectional study on transitions from active life to retirement - 2006

Responsable(s) :Guggemos Fabien, Employment Division

Date de modification : 20/10/2017 | Version : 1 | ID : 73107

## Général

### Identification

Nom détaillé	Cross-sectional study on transitions from active life to retirement - 2006
Numéro d'enregistrement (ID-RCB ou EUDRACT, CNIL, CPP, etc.)	CNIL, European regulation No. 388/2005

### Thématiques générales

Domaine médical	General practice
Déterminants de santé	Lifestyle and behavior Occupation Social and psychosocial factors
Mots-clés	retirement, transition, health, professional life

### Responsable(s) scientifique(s)

Nom du responsable	Guggemos
Prénom	Fabien
Téléphone	+33 (0)1 41 17 50 18
Email	fabien.guggemos@insee.fr
Laboratoire	Employment Division
Organisme	Insee

### Collaborations

Participation à des projets, des réseaux, des consortiums	Yes
---	-----

Précisions	Ad hoc module of the Employment survey
------------	--

### Financements

Financements	Public
--------------	--------

Précisions	Insee
<b>Gouvernance de la base de données</b>	
Organisation(s) responsable(s) ou promoteur	Insee
Statut de l'organisation	Secteur Public
<b>Contact(s) supplémentaire(s)</b>	
<b>Caractéristiques</b>	
<b>Type de base de données</b>	
Type de base de données	Study databases
Base de données issues d'enquêtes, précisions	Repeated cross-sectional studies (except case control studies)
Origine du recrutement des participants	A population file
Le recrutement dans la base de données s'effectue dans le cadre d'une étude interventionnelle	Yes
Informations complémentaires concernant la constitution de l'échantillon	Sample made up of the 6th completion of the Employment survey (residence questioned for the 6th and final time)
<b>Objectif de la base de données</b>	
Objectif principal	The first objective of this module is to compile an overview of the situation of the work-retirement transition. How is this transition made or how is it planned? Will the transition be made or will it be done directly from work to retirement? Have the individuals had or thought they would have a transition period (pre-retirement, transition to part-time)? The second objective pursued is the analysis of factors that may influence or have influenced this transition from work to retirement, as well as the determination of the factors that may postpone or that have postponed leaving the job market. These factors may be of different types: the general working conditions (planning of work schedules, better health conditions); other factors directly related to the job (training and obsolescence of skills); financial factors (financial incentives to stay

in their job); personal factors (health, family reasons).

Critères d'inclusion	Individuals from 50 to 69 years of age on 31/12/2006 (individuals born between 1937 and 1956) who live in an ordinary household and whose household has been questioned for the 6th and final time by the Employment survey (6th outgoing)
<b>Type de population</b>	
Age	Adulthood (45 to 64 years) Elderly (65 to 79 years)
Population concernée	General population
<b>Pathologie</b>	
Sexe	Male Woman
Champ géographique	National
Détail du champ géographique	France
<b>Collecte</b>	
<b>Dates</b>	
Année du premier recueil	2006
Année du dernier recueil	2006
<b>Taille de la base de données</b>	
Taille de la base de données (en nombre d'individus)	[10 000-20 000[ individuals
Détail du nombre d'individus	12 451
<b>Données</b>	
Activité de la base	Data collection completed
Type de données recueillies	Declarative data
Données déclaratives, précisions	Face to face interview
Détail des données déclaratives recueillies	These general working conditions (planning of work schedules, better health conditions); other factors directly related to the job (training and

obsolescence of skills); financial factors (financial incentives to stay in their job); personal factors (health, family reasons).

Existence d'une biothèque No

Paramètres de santé étudiés Health event/mortality

## Modalités

Mode de recueil des données Computer-assisted personal interviewing (CAPI)

Suivi des participants No

## Pathologie suivies

Appariement avec des sources administratives No

## Accès

Charte d'accès aux données (convention de mise à disposition, format de données et délais de mise à disposition)

Available formats: The data are available in SAS, SPSS and STATA formats.  
Confidentiality statement: To obtain the data, you must agree not to transfer the data, in any way, to a third party.  
Special permissions: The "Production and Research" files (FPR) are subject to specific rules for use and should be destroyed at the end of the research for which they have been shared.  
Restrictions for use: The data may only be used for research purposes. Any other use, commercial or otherwise, is strictly prohibited.  
Reference requirement: The source of the data received must appear in the publications supported by these data (including footnotes, bibliographic references, table legends).  
Submission requirement: In order to provide the producing organisations with essential information regarding the use of the archived resources, the data users are required to send the ADISP-CMH, if possible in electronic format, an abstract or a reprint of their publication(s), indicating which studies were used in an accompanying letter.

Conditions of access: Different access procedures

according to the requesting party's institutional affiliation and status. In all cases, the approval of the request at the end of instruction leads to the signature of an individual agreement.

Liability disclaimer: The producer and sharer of the data are not responsible for interpretations or deductions made using the data.
